## GERMANY IS TO BE TOLD U. S. CASE COMPLETE

Compliance to Demands  
of America Will  
Necessitate Diver-  
Policy Modifications

FINAL WORD ON  
CASE EMPHASIZED

President and Cabinet  
Discuss Last Details  
of Note That May  
Precipitate a Crisis

WASHINGTON, April 15.—What is to be said in the most important note America ever sent to Germany virtually is drafted and President Wilson and Secretary Lansing today scanned additional evidence supporting their position in the channel packet Suisse case.

Affidavits from American survivors of the disaster, which arrived by mail aboard the liner St. Paul, were regarded as convicting Germany of an unjustified attack. A conference between Senator Stone and Chairman Flood of the House committee was scheduled at which the ground on which the present action is being taken is to be examined and possible eventualities discussed. The proposition of laying the whole matter before Congress also will be considered.

It was understood that the tentative American note states such conditions that Germany must make sweeping changes in its submarine policy, as in no other way can it give the assurances asked.

### Berlin Foreign Office Perturbed

LONDON, April 15.—The correspondent at The Hague of the Exchange Telegraph Company forwards following: Considerable perturbation has been caused at the Berlin foreign office by news received by wireless of American dissatisfaction with the recent German note. The chancellor had several conferences with the American ambassador and also discussed possibilities with Count von Buri, Austro-Hungarian foreign minister, who is now in Berlin. Long instructions were sent to Ambassador von Bernstorff at Washington.

German officialdom now seems willing to strain every nerve in order to avoid a rupture with the United States, while the press continues in a most flamboyant way to give advice to President Wilson, publishing vicious articles and cartoons of the President.

### Inverlyon Sinking Aggravates Situation

WASHINGTON, April 15.—The American consul at Qukenstown, reporting the destruction of the Aberdeen bark Inverlyon, cabled today that the ship was sunk by gun fire of a submarine after fifteen minutes had been given to abandon the vessel. Two Americans, he said, were in the one boatload which was saved and none in the boatload which was unaccounted for. The Inverlyon, he reported, was unarmed and made no resistance. She carried a cargo from Portland, Ore.

Last night's dispatch from abroad referred to the Inverlyon as a British steamer. Officials here admitted that there was a serious question involved in the Inverlyon case. They were inclined to believe the passengers were taken off from land and must consider their condition at sea.

### American Aboard Unwarned Victim

WASHINGTON, April 15.—John Harrison of Chicago, steward of the steamer Margon Abbey, torpedoed without warning, was rescued, Consul Skinner in London cabled the State department today. The Margon Abbey was attacked by a submarine last Saturday sixty-five miles south of the Lizard, said the advices. It did not resist the U. boat.

### Burman Pin Suspect Not Mrs. Marion Corns

SAN FRANCISCO, April 15.—Police of San Francisco and Alameda county declared today that they had no evidence tending to identify Mrs. Marion Clark, under arrest in Los Angeles charged with the theft of a diamond from the body of "Red" Burman, as Mrs. Marion Lucas Corns. Mrs. Clark was taken into custody in Los Angeles when it was discovered after the death of Burman in the Corona automobile race last Saturday that an \$800 diamond had been taken from his body.

MRS. F. B. WALCOTT, arrested as suspect in plot with younger man, her pretended son, to burn lodging house in order to avoid paying their rent.

## STUDENT MISSING; ALARM IS FELT BY HIS RELATIVES

Herbert Hyatt, U. C. Freshman, Has Strangely Disappeared.

BERKELEY, April 15.—Disappearing a week ago from his residence at 2305 Bancroft way, Herbert Joseph Walbridge Hyatt, a freshman student in the University of California, has caused alarm among his relatives in this city, one of whom is an uncle, Elmer H. North, former commissioner of immigration.

The family have been pursuing a search for the missing student about the bay and in Chico, where he formerly resided, and throughout the Sacramento valley, where he and his family are presently connected, but so far without avail. The fact that he had been having difficulties with his studies and that he recently had been in a morose mood has led his kinsfolk in Berkeley to fear that he may have taken his life.

Lieutenant of Hyatt in the college of letters and science. Besides North, Hyatt has other relatives of prominence in this city. Mrs. George E. Oxley of 2701 Woolsey street and Mrs. F. L. Weldon of 2325 Fulton street are his aunts.

### Woman Fires at Socialist Leader

Attempt to Slay Karl Liebknecht Made

LONDON, April 15.—An Amsterdam dispatch to the Exchange Telegraph company says that travelers arriving at The Hague from Berlin report that a woman fired two shots from a revolver at Dr. Karl Liebknecht while the Socialist member of the Reichstag was walking in the street. Both shots missed. The assailant, the report continues, was arrested.

## CAMINETTI AND DIGGS MAY GET SPEEDY HEARING

Solicitor-General Asks Supreme Court to Advance Cases.

WASHINGTON, April 15.—Solicitor-General Davis of the department of justice today filed in the United States Supreme Court a motion to advance the Diggs-Caminetti white slavery cases for joint hearing in the next court term.

Both Maury T. Diggs and Drew Caminetti appealed from their conviction in a San Francisco court. Caminetti, son of the United States commissioner of immigration, faces a sentence of eighteen months and a fine of \$1,000, while Diggs has been sentenced to two years and a fine of \$2,000.

COUNSEL IS PLEASED.  
SAN FRANCISCO, April 15.—Marshall Woodworth, one of the attorneys in the Diggs-Caminetti cases, expressed pleasure today when informed that the solicitor-general wanted the date of the appeal proceedings advanced to the next term of the United States Supreme Court.

"We will not oppose the motion, as we want to get the appeal decided as soon as possible," said Woodworth. "This motion, if granted, will mean that the Supreme Court will hear the cases next October, whereas if they had been taken up in their numerical order, there being some 800 other matters pending, they would not have had a hearing until maybe the end of 1917."

Woodworth said that the appeal would be argued in Washington by R. T. Devlin, one of the other attorneys in the trial, and himself. Nathan Coghlan of counsel for the defense may also go to Washington.

### Siberian Wolf Dogs Win Big Sweepstakes

NOME Alaska, April 15.—Leonard Seppala, driving his team of seven Siberian wolf dogs with which he won last year's race, late yesterday won the 412-mile All-Alaska sweepstakes race for dog teams. Seppala's time was 39 hours and 27 minutes. Fay Deinen's team of fourteen Alaska-bred huskies won second and Fred Ayer's team of fourteen foxhounds third.

Seppala left Nome on his 412-mile drive to Candle and return at one minute after 9 o'clock Tuesday morning and it was just 5:25 this evening when his dogs trotted across the finish line in front of the Board of Trade saloon on Front street. Seppala's time of 39:27 is 1 hour and 27 minutes, 23 seconds slower than his time last year, and 6 hours, 12 minutes, 48 seconds slower than the record set by John Johnson's Siberian "woolies" in 1910.

### To Strengthen Guard by Federal Oath

WASHINGTON, April 15.—Further to strengthen federalization of the National Guard, the Senate today, by a vote of 23 to 21, amended the army reorganization bill to require guardsmen to take an oath to obey the orders of the President as well as the Governor of their state. The amendment was presented by Senator Wadsworth, who said it originated in the National Guard itself.

## HOUSE FIRED; COUPLE HELD AS DEBTORS

They Set Blaze Because Unable to Pay Rent, Charge

Not Mother and Son, as They Posed, Youth Admits

Love and arson combined to send Mrs. Frankie B. Walcott, 43 years of age, and Archie Fairholm, twenty years her junior, to the city prison. The police say the couple, who posed as mother and son, set fire to the lodging-house in which they were guests, at Jackson and Eleventh streets, to avoid paying arrears in rent.

The fire occurred in the attic over the apartment occupied by Mrs. Walcott and Fairholm and was of apparent incendiary origin. The only access to the attic was through a trap-door in the clothes closet in Mrs. Walcott's bedroom.

Newspapers were piled in the attic under the stairs and were ignited to set fire to the roof. The newspapers, according to the police, had been given the couple the day before the fire by Mrs. Mary Jane Moore, proprietress of the lodging-house.

When the alarm of fire was sounded and the fire engines dashed down Jackson street, Mrs. Walcott and Fairholm seized their suitcases and traveling bags, which had been carefully packed in advance, and started to run from the building. Mrs. Moore stopped them, remarking that the danger was not so great that they should leave without paying their arrears in rent. Their arrest followed.

The couple have been held since Thursday, when the fire occurred. The blaze was quickly put out and the fire-nest laid in the attic discovered. The arson investigation followed.

Mrs. Walcott at first stoutly maintained that Fairholm was her son. She denied any knowledge of the alleged arson.

Fairholm failed to hold to the story when the police subjected him to a close and continued questioning. He broke down and confessed that he was in relation to Mrs. Walcott, but refused to make any statement concerning the fire.

Inspector William Kyle, who investigated the Charles Lester Burright arson ring, the Mundt and German arson cases, and several other similar cases successfully, with the aid of Inspector John Duffon, was detailed to investigate this case. The inspectors say that Mrs. Walcott is the widow of a wealthy Fresno saloonkeeper who died fifteen months ago. Youth, in money from his estate, came to Fairholm, who arrived in Oakland and came in a big touring car, and young Fairholm, who is a blacksmith and metal worker, came with her.

The couple lived in comparative ease at the address, in two apartments on Jackson and Eleventh streets, but funds began to run low, what with keeping the automobile and evening parties. They finally moved to the Jackson and Eleventh streets lodging-house, and efforts were made to sell the big touring car. It is still for sale and can be had for a song, according to the couple.

Charges of arson, Captain Petersen announced today, will be placed against the couple.

## Emissary of Carranza on Way to Japan

EL PASO, April 15.—General Ramon Turbide is here today en route to Japan on a special Carranza mission. He refuses to confirm or deny reports that he will seek an alliance. It is believed here the state department will undoubtedly demand an explanation of the mission from Carranza immediately. It is pointed out that a military alliance between Japan and Mexico would constitute an unfriendly act, deliberately violating the accepted, unwritten, principles of the Monroe doctrine.

It also is considered not improbable that the state department will, by diplomatic overtures, seek to determine Japan's attitude toward Mexico.

## BUSY MEN OF OAKLAND TO JOIN CAMP

Military School to Have Many Rookies From Here

Business and Professional Garb to Be Changed

Oakland will send scores of bankers, merchants, professional and business men to the summer training camp which the United States army will maintain at Monterey next July. They will be trained in the tricks of the trade of the soldier. Young and middle-aged men who transact the multifarious affairs of the city's commercial life will don khaki uniforms, live in tents, eat from tin plates, carry guns, drill and live the strenuous life of the army "rookie" for a month, that they may be prepared to take up arms in the country's defense in the event of war.

Plans for Oakland's participation in the military camp were formed at a "military meeting" held in Hotel Oakland yesterday, when more than twenty of the city's biggest business men became active members of a committee to further the project. Most of those present announced that they would grant a month's vacation, on salary, to all employees desirous of joining the camp.

TOLD OF NEEDS.  
General Franklin Bell, who is at the head of the Western department of the United States army, was present at the meeting. He told the business men the military needs of the country and explained the methods used by the army officers in training the citizen soldiery in the summer camps.

Following this officer's address, W. W. Garthwaite, president of the Oakland Bank of Savings, announced that five members of the bank staff would be sent to the camp, with their salaries and all of their expenses for the month paid. H. C. Capwell announced that all employees of his firm desirous of enlisting would be permitted to do so on salary. Russell Lowry, president of the First National Bank, said that at least three of the men in that institution would learn the soldier's trade at the Monterey camp. Other business men made similar pledges.

TO CAMPAIGN IN CITY.  
The men at the meeting were formed into a committee to go among the other business men of the city and campaign for other promises of support.

George A. Batchelder, who heads the citizens committee in charge of the "preparedness" work in San Francisco, was another speaker at the meeting. He explained the steps taken in San Francisco toward sending a large delegation to the Monterey camp.

The meeting was called by a general committee consisting of Garthwaite, Lowry, J. P. Carleton, president of the Central National Bank, and Joseph E. Caine, managing director of the Oakland Chamber of Commerce.

## CHASE FOR COX BROTHERS ENDS WITH CAPTURE

Albert, Taken at Winnemucca, and Will Be Jailed at Auburn.

AUBURN, April 15.—The end of the chase for the brothers, accused of shooting Constable F. H. Dependence here last Sunday, came today with the capture of Albert Cox at Winnemucca, Nev., by Sheriff George McCauley and the sheriff of Winnemucca.

Jim Cox, who fled into the hills with Albert after the shooting, surrendered here last Wednesday. Albert is wounded in the arm by a bullet from the constable's revolver.

Poses beat the hills here and around Truckee, Cal., for several days intermittently, but neither they nor Folsom prison bloodhounds, loosed on the trail of the fugitives, were able to find trace of the brothers.

After the shooting of Dependence, who is still living, the Cox boys escaped from the courthouse, where the shooting took place, and down the main street, terrorizing the townsfolk on their way to church, with a flourish of revolvers.

Albert will be brought back here to jail, where Jim is held.

## PARRAL RIOTERS ARE CAUSING TERROR TO AMERICAN CIVILIANS

Secretary Lansing Sends Consul in Mexico Instructions in Regard to Carranza's Request for Withdrawal of Troops, But Does Not Authorize Him to Negotiate

## RAINY SEASON TO BLOCK PURSUIT

State and War Departments Continue in Ignorance of Details Concerning Second Attack on Col. Tompkins, and Situation as It Effects Punitive Expedition Remains Clouded in Uncertainty

EL PASO, April 15.—Reported Mexican attacks on American property at Parral were confirmed today by messages received here. Besides news of the destruction of the Alvarado \$500,000 mining mill in a suburb, local owners of the Parral-Durango railway received urgent calls for help from their American manager at Parral. He stated the road's offices had been entered and all records destroyed.

Other American properties are believed to have been wrecked by mobs enraged over the clash between Americans and Mexicans. Officials of the Alvarado company demanded protection for their Parral property from General Gavira and Consul Garcia. The latter is reported to have communicated with Carranza concerning the Parral situation.

Messages failed to state the attitude of the Carranza garrison at Parral toward the mob. Mexicans took all valuables from the American warehouse and offices, it was stated.

Apprehension is felt for the safety of Americans and other foreigners in Parral. Some of those known to be in that section of Mexico are G. Smith and W. C. Palmer of the Parral & Durango Railway, Leslie Webb and B. C. Robinson of the El Rio Mining Company and a Miss Dunning, a Methodist missionary. Another woman missionary, understood to be associated with Miss Dunning, is also reported to be in Parral. There are several French and German subjects in that vicinity.

## CARRANZISTAS PREPARING TO ATTACK ZAPATA STRONGHOLD

WASHINGTON, April 15.—Eliseo Arredondo, General Carranza's ambassador, here said today he had no further information of the fighting at Parral, nor of reports of a later clash.

A battle at Cuernavaca, the Zapata stronghold, was reported imminent. The advance guard of the Carranza forces was said to be in sight of the fortress.

Secretary Lansing today sent Consul Rodgers in Mexico City detailed instructions with regard to General Carranza's request for withdrawal of American troops. While he refused to announce the character of these directions, it was learned authoritatively that Lansing informed Rodgers of the administration's willingness to discuss the proposition with Ambassador Arredondo.

It was understood that Rodgers was not instructed to treat with Carranza, but merely to inform him of Lansing's decision to receive Arredondo's overtures.

## SEVERAL THOUSAND CARRANZISTAS LOCATED

SAN ANTONIO, Texas, April 15.—Army aviators today located several thousand Carranzistas encamped in a pass between Bavispe valley and Casas Grandes, according to General Funston's reports. The flying men said it was evidence the Mexicans had not moved for days.

Though supplies are passing over the Mexican Central Railroad to Chihuahua City, where brokers handle them and pass the provisions on to the troops, General Funston said:

"The rainy season is not far distant and then roads south of Columbus will be impassable. If the troops are still as far south then as they are now our communications will be useless. I have done everything in my power to obtain use of the railroads."

## SPRECKELS FORMS NEW PARTY WITH PACIFIST PLAN

Is on Pilgrimage to Detroit to Woo Henry Ford's Consent.

WASHINGTON, April 15.—Rudolph Spreckels went to Detroit today to try and persuade Henry Ford to become the presidential candidate of the "Pacifist" party in the campaign. As a first step to that end, it was learned that Ford would be entered in the Republican primary in Pennsylvania.

"I may vote for Woodrow Wilson in November," said Spreckels, "but I would like to vote the Republican ticket. I cannot support Roosevelt because of his inconsistency in joining the men he fought in 1912."

"Hughes is a promising candidate, but we do not know whether he is qualified for President."

## Str. Ide Maru Throws War Cargo Into Pacific

HONOLULU, T. H., April 15.—War supplies, including powder, cartridges and machinery, weighing 123 tons and valued at \$50,000 were thrown overboard from the Japanese steamer Ide Maru, which arrived here April 12 under jury rudder. The cargo was jettisoned to lighten the disabled ship forward during a gale. The total value of the Ide Maru's cargo was estimated at \$5,000,000.

The vessel's stay here for repairs, it was announced today, involves a loss to the charterers of \$2000 a day and on account of the stop at an American port the vessel must comply with the conditions of the Seamen's Act before being granted clearance.

The authorities are taking every precaution to guard the vessel against possible harm from enemy spies.

## Funston Message Causes Speculation

WASHINGTON, April 15.—A second fight between Americans and residents of Parral was reported today in consular dispatches to El Paso, forwarded here. No details were given.

In General Funston's long code message which was the subject of a midnight conference at the White House between the President and Secretary Baker, it is believed that radical changes in the Villa hunt were recommended. Speculation as to its contents ranged from requests for more troops to taking over Mexican railways which are needed for iterating the necessity of shifting the base of operations from Columbus.

The message presumably related to Funston's orders to protect troops, as a result of the Parral incident. It contained no news of the Parral clash. This is the fourth day since the encounter there and no official news has been received.

Secretary Lansing's willingness to treat with Ambassador Arredondo concerning the requested withdrawal may mean that preliminary negotiations will be opened today or next week. While some officials said a change in the Mexican policy was in sight, others believed the negotiations might result in a withdrawal of American troops.

State Department officials are preparing to set in motion diplomatic machinery for a discussion with General Carranza, but while the negotiations are under way the hunt for Villa will continue.

Consul Letcher at Chihuahua City informed the State Department today that newspapers there published an unimpeachable account of the fight at Parral, saying an American had been killed, but failing to state how many Mexicans died.

## Will Insist on Withdrawal

MEXICO CITY, April 15.—The Mexican government will insist with inflexible determination that any armed expedition of the United States (Continued on Page 2, Col. 3)

BURTON TO SPEAK BEFORE CHAMBER

Former Senator Theodore B. Burton, of Cleveland, Ohio, statesman, author and noted figure in public life, will be the speaker before the Advertising Bureau of the Chamber of Commerce, Tuesday, April 25, at the luncheon of the organization, which, on account of the special interest of the occasion, will be held in the large dining room of Hotel Oakland. This was announced today, after Joseph B. Knowland, at the suggestion of Chairman W. W. Crilley of the bureau, wired the statesman, now in the southern part of the state.

The address will be non-political, the guest of honor to discuss matters of interest to business men, according to the announcement.

Senator Burton retired from active official life March 3, 1915. He is the author of "Financial Crises and Periods of Commercial and Financial Depression," published in 1907, "Life of John Sherman," published in 1910 in the "American Statesman Series," and "Corporations and the State," published in 1911. He received the degree of LL.D. from Oberlin College in 1906, and from Dartmouth College and Ohio University in 1907. He was a representative in the fifty-first, fifty-second, fifty-fifth, fifty-sixth, fifty-seventh, fifty-eighth, fifty-ninth and sixtieth congresses, for 13 years was a member and for 10 years chairman of the Committee on Rivers and Harbors, and was a delegate at the Republican National conventions of 1904 and 1908.

In the 1908 convention he presented the name of William Howard Taft for the presidential nomination, when the session was held in Chicago. He was a member of the National Monetary Commission and was elected to the sixty-first Congress, but resigned when elected

COURT REFUSES ALIMONY INCREASE

Mrs. Sylvia E. Rosenstirn, adopted daughter of F. C. Talbot, millionaire lumberman, has failed in her efforts to obtain an increase of alimony from \$200 to \$250 per month from Alfred Rosenstirn, wealthy realty broker and attorney whom she divorced a year ago.

After a hearing, which consumed the entire day, Superior Judge F. B. Ogden refused Mrs. Rosenstirn's petition to have the interlocutory decree modified so that she would receive additional alimony and be permitted to take her two small children to the southern part of the state on a vacation.

Under the terms of the interlocutory decree the father is permitted to have the children with him on certain occasions and to keep them with him over night twice each year under the supervision of their nurse. He was also permitted to visit them at their mother's apartments in the Hotel Oakland.

On such visits, Mrs. Rosenstirn testified, her husband was accustomed to falling asleep in a chair. She further testified that when the children returned from a visit with their father they were nervous and unstrung. They needed the vacation very badly, she said.

Rosenstirn for his part opposed the action, stating that if the children are to be taken away it should be under court order. He protested that he is unable to afford an increase in his wife's alimony.

The case was set for trial in the United States District Court, by the Ohio Legislature, in 1909.

The announcement is of especial interest on account of the fact that at the present time Senator Burton is prominently named as a possible candidate for either president or vice-president, and is declared one of the important factors in the coming presidential race.

ARTILLERY DUEL IS ON AT VERDUN

PARIS, April 15.—Heavy artillery fighting took place on the west bank of the Meuse during the night, but the lull in infantry operations continued, according to official announcements today.

The Germans kept up an incessant cannonade between Malancourt wood and Hill 304. French guns were said to be doing effective work, particularly east of the Forbach woods and the Forges bridge.

East of the Meuse and on the Woëvre plain there were intermittent bombardments. The French repulsed a reconnaissance north of Tave and defeated other patrols south of the St. Marie mines, in the Vosges.

GERMAN STATEMENT.

BERLIN, April 15.—French hand-grenade attacks south of Fort Douaumont during the night proved ineffective, the war office made public today.

On the west bank of the Meuse the war office said French troops unsuccessfully attempted an attack on a line extending from Dead Man's Hill to Comblanchette. The Germans' artillery fire held the French in their trenches. A few who reached the German defenses were slaughtered in front of the barbed wire entanglements.

A British hand-grenade attack at St. Etienne was repulsed. Elsewhere on the western front the only activity was a little artillery fighting.

PRESENTS RECALL WITH FEW NAMES

Mysterious Paper Handed in to Keep Matter Open, Is Refused.

Lawrence Hills, formerly connected with the Taxpayers' League in the investigation of election irregularities, presented petitions for the recall of Mayor Davis and Commissioners Anderson, Baccus and Edwards at the office of City Clerk L. W. Cummings. Cummings refused to file the petitions as only a few signatures were signed to each of the petitions, the balance being signed by "Joe Doe, retired." All these were in the same handwriting. Cummings obtained an informal opinion from the city attorney's office that unless the petitions were apparently bona fide and sufficient, he was not compelled to file them. Only half a dozen bona fide signatures appeared on each petition and Cummings said that after noon today he considered the matter a closed issue.

Hills explained that he was filing a few petitions "merely to keep the matter open."

"R. J. McCaskie and J. R. Sorenson, the initiators of this recall, have left town," said Hills. "I want time to get the signatures and compel them to file the signatures in their possession. We can do this under the law."

"Who are you representing?" Hills was asked.

"I cannot answer that question," he said.

LEAGUE IS RUMORED.

It was rumored that Hills was employed by the Taxpayers' League, with which he was formerly connected. Friends of Commissioner F. E. Jackson, against whom the Taxpayers' League proposed to file recall petitions, from today, any they believe that the Taxpayers' League is back of the movement to attempt to force the filing of petitions on the other commissioners. It is considered that if a general recall election is planned, several commissioners are planned, there will be greater ease in getting signatures against Dr. Jackson. Many people are unwilling to sign a recall petition against one man when there is to be the expense of an election for this purpose alone. If a recall were a certainty of other commissioners, the same people would not hesitate.

Hills was willing to admit that the Taxpayers' League has interested itself in the matter since Sorenson and McCaskie announced that they had decided to "call off the recall."

This movement to put the matter through was initiated by some fifty men who were dissatisfied with the action of their leaders," said Hills. "They sought the advice and assistance of the Taxpayers' League, and this was given. They believed there was something crooked about the deal. Of course this petition is insufficient. But it is legal, and when the city clerk has certified that it is insufficient, we have fifteen days under the charter to get these signatures that have been held up."

The charter demands that 15 per cent of the votes cast at the last general election shall be the minimum of recall signatures filed against any official. City Clerk Cummings holds that as the petitions presented today made no pretense of coming up to the necessary 675 signatures, he was not compelled to file them. He refused to do so.

The petition for Commissioner Edwards contained six signatures that appeared to be bona fide, being sworn to before Frederick E. Brown, an accredited verification deputy. The balance of the petitions, about 200 in number, were signed "John Doe, retired," and were not signed by any verification deputy. A few were signed by "John Doe, hood carrier."

The petitions against Mayor Davis and Commissioners Anderson and Baccus were similarly signed with a few apparently bona fide names, but contained a stack of farcical "John Doe" signatures, most of whom were either "retired," or "bricklayers," or "hood carriers."

"I hope they do force the fellows to file their petitions," said Mayor Davis. "Then we'll know the truth about this matter. They said they had over 9000 signatures against me. It was a lie. I'd like to see how many they could really file."

ESTILL IN CITY.

Thomas Estill, commissioner of the Western division of the Salvation Army, in charge of the Pacific coast and Nevada, Arizona and Idaho, is a guest at the Hotel Oakland, and tomorrow will inspect the local chapter of the organization. He is accompanied by his secretary, John Flynn.

VASSAR DEAN IS LUNCHEON GUEST

Miss Ella McCaskie, dean of Vassar College, was the guest of honor today at a luncheon given at Mills College by the Pacific Branch of the Vassar Society. After she was a special guest at a reception given by the Mills trustees to Prof. George Herbert Palmer of Harvard in Lissner Hall.

Those at the luncheon included many well known women from Oakland, San Francisco and other cities around the bay, among them: Miss Caroline C. Jackson, Oakland; Mrs. George H. Bailey, Piedmont; Mrs. Ira Pierce, San Francisco; Mrs. J. G. Walker, San Francisco; Mrs. William A. Anderson, Oakland; Mrs. E. L. Brownell, San Francisco; Dr. Marion Burke, Palo Alto; Mrs. Walter V. Clarke, San Francisco; Mrs. J. Franklin Daniel, Berkeley; Mrs. Ludwig Denner, Berkeley; Mrs. O. O. Deery, Berkeley; Mrs. W. E. Deery, Berkeley; Mrs. William S. Farley, Berkeley; Mrs. Edward J. Fowler, Berkeley; Mrs. Julia S. George, San Francisco; Mrs. Chaucery Goodrich, San Francisco; Miss Catherine Harter, Miss Harter's School, Palo Alto; Mrs. George H. Harter, Berkeley; Mrs. M. D. Kellogg, San Francisco; Mrs. Geo. Klinkhardt, Berkeley; Mrs. Geo. Livermore, San Francisco; Mrs. Norman Livermore, San Francisco; Dr. William J. Martin, Stanford University; Dr. Emma Suito Merriam, San Francisco; Miss Marion V. Miller, San Francisco; Mrs. C. E. Miller, San Francisco; Mrs. Ethel Moore, Oakland; Miss Ruth E. Palmer, Berkeley; Mrs. S. T. Pearson, San Francisco; Miss Helen W. Peckham, Berkeley; Mrs. Frank Peckham, Berkeley; Miss Marion Ransom, Piedmont; Mrs. B. S. Sorenson, San Francisco; Mrs. Edith L. Stebbins, Berkeley; Mrs. Neely Stevens, San Francisco; Mrs. Thomas E. Swain, Oakland; Miss Hope Traver, Mills College; Mrs. Wm. B. Thorsen, Berkeley; Mrs. Charles W. Thorsen, Berkeley; Mrs. Emma R. Wellman, Oakland; Mrs. Fredrick Whittier, Berkeley; Miss Ruth Valentine, Oakland; Mrs. C. S. Wheeler, San Francisco; Mrs. Howard E. Wright, Berkeley.

REPUBLICAN OFFICES OPEN

The official headquarters of the Republican party and of the Republican county committee are at 219 Syndicate building, Telephone Oakland 3637. Open from 10 a. m. to 12 m. and 1 p. m. to 5 p. m. Information courteously given. Your co-operation, assistance and suggestions cordially invited. Literature and cards for distribution on application.

Women Republicans welcome at all times. Secretary in attendance.

Many Suing for Railroad Accidents

Damage suits aggregating \$55,000 were filed today in the Superior Court against the San Francisco-Oakland Terminal Railway as the result of the fatal accident on January 3 at Fifty-fifth and Grove streets, when Kemper P. Branson, real salesman, was instantly killed, and Benjamin J. Digges and Miss Ruth Kelly seriously injured.

Mrs. Tillie Branson, in behalf of herself and 11-year-old son, Albert, asks for \$25,000 damages. Miss Ruth, who claims that she received a fractured pelvis, wants \$25,950 damages.

Henry Syms, "potato king" of Alameda, has commenced suit for \$21,175 through the same attorneys against the Southern Pacific Company, alleging that he received permanent injuries when struck by an electric train last May.

Charles R. Bennett is suing the same

HUGHES OBJECTS TO NAME IN OREGON

SALEM, Ore., April 15.—A telegram was received by Secretary of State Olcott this morning from Charles D. Hughes, in which the New York justice stated that he objected to his name being placed on the primary ballot and requesting that action be withheld until a letter which was on the road explaining his objections had been received.

This action of Justice Hughes will probably postpone the filing of the writ of mandamus to compel Olcott to place Hughes' name on the ballot as was proposed by the Hughes faction in Portland. The text of Hughes' telegram follows: "I was informed on April 13 that a petition was about to be filed and at once invited to my statement of my objections and my request that my name shall not be placed on primary ballot. (Signed) CHARLES D. HUGHES, Washington, D. C."

This letter is believed to be the same that Hughes has sent to other states. But in none of these states has he said that he will not accept if he is nominated.

Surprise Attacks Result in Gains

BERLIN, April 15.—An Austrian surprise attack against a Russian advanced position on the Ducez-Czerthow road was announced in today's Vienna communiqué. Slight gains were claimed on the Italian front and evacuation of an Austrian position was admitted.

"The Russians shelled us on the lower Stryka, Dniester and northwest of Czernow," said the communiqué. "Strong combats between advanced patrols continued. Northeast of Jaslow the enemy entered an advanced position and was immediately ejected by a counter attack. We captured one officer, three ensigns and 100 Russians."

"The Italians suffered heavily attempting to retake a lost position on the Mliriv. South of Stitzera an Italian attack failed."

GOETHALS AGAIN TO RESIGN, RUMOR

PANAMA, April 15.—Governor George W. Goethals of the canal zone, who withdrew his resignation and hurried back here from Washington to clear the canal of the Gallard Cut landslides last September, is expected to reoffer his resignation to President Wilson if there is no further trouble following the reopening of the canal today.

Colonel Harding, who has been acting governor during Goethals' absence in the United States, is expected to succeed Colonel Goethals as governor when the time comes.

Goethals has not announced that he will reoffer his resignation, but his associates here feel sure he will, because he is asked to be retired under the army retirement rule before thinking his work in completing the canal was done.

The earth movements blocking the canal began last September, about the time Goethals offered his resignation to President Wilson in Washington. At news of the trouble, which prevented the passage of the Atlantic fleet, which was to have attended the opening of the Panama-Pacific Exposition, Goethals asked the President not to act on his resignation, and in October he hurried back to Panama.

The canal builder faced a task slightly less gigantic than the one he faced in finishing the big project itself. Millions of tons of rock and earth have been torn from the collapsed excavations under Goethals' direction, employing bigger dredges and steam shovels than ever were used before.

Construction work at the terminal also has been completed in the meantime, and when the big ships begin to pass through the canal way it will be more advanced in equipment, more "polished" than it ever has been. It will be able to handle ships much more expeditiously than heretofore.

CARRANZA WILL NOT RECONSIDER

(Continued From Page 1.)

which enters Mexican territory in the guise of a punitive expedition must be limited to 1000 men of one service alone, cavalry, according to a statement made to the Associated Press today by Juan Nofre Armador, sub-secretary of foreign relations.

During the absence of General Candido Aguilar, minister of foreign relations, in Queretaro, Sub-secretary Armador is in charge of the foreign office, and is conducting its course in international affairs.

"The Mexican government has contended in all of its notes to the Washington State Department," said the sub-secretary, "that the sending of heavy artillery and slow marching infantry on a punitive expedition is illogical, as the work of the present so-called punitive expedition has more than demonstrated this, for they have accomplished absolutely nothing."

"Mexico will and has in all of its communications to Washington insisted that all punitive expeditions must be limited to certain restricted areas. The request of the United States that the present expedition be considered exceptional cannot be agreed to by the Mexican government for the very good reason that each day of its presence so far inland does nothing, but excite our people. This is being taken advantage of by enemies of the constitutional government, who are endeavoring to stage incidents that will cause grave international complications."

GOETHALS AGAIN TO RESIGN, RUMOR

PANAMA, April 15.—Governor George W. Goethals of the canal zone, who withdrew his resignation and hurried back here from Washington to clear the canal of the Gallard Cut landslides last September, is expected to reoffer his resignation to President Wilson if there is no further trouble following the reopening of the canal today.

Colonel Harding, who has been acting governor during Goethals' absence in the United States, is expected to succeed Colonel Goethals as governor when the time comes.

Goethals has not announced that he will reoffer his resignation, but his associates here feel sure he will, because he is asked to be retired under the army retirement rule before thinking his work in completing the canal was done.

The earth movements blocking the canal began last September, about the time Goethals offered his resignation to President Wilson in Washington. POLITICAL ISSUE, ONE-MAN CONTROL

The regular Republican campaign committee issued the following statement in reply to Governor Johnson:

"In response to the frantic appeal for help from the candidates on the hydraulic ticket, Governor Johnson has said that he has not been forced into the open and now admits that although he is registered as a Progressive he is really working for the election of the so-called 'United' ticket, by getting the primary law of January, 1915, which revived the nefarious practice of colonization and by substituting his personal government in California for orderly party government."

"The issue is not simply drawn by the regular Republican National ticket offered for the support of Republicans. The so-called 'United' ticket is representative of a faction only as is now plainly evidenced by the Governor's admissions."

"Do the Republicans of California intend again to permit themselves to be disfranchised by being misrepresented in the Republican National Convention?"

"The regular 'BROAD QUININE' ticket is composed of staunch members of the party against whom no suspicion of domination by any special interest has been directed and who seek harmonious co-operation with all Republicans, including the returning Progressives. A perusal of the Johnson-Earl ticket shows a large percentage of individuals who are directly obligated to Governor Johnson and his associates. Five Johnson-Earl candidates are executive officers in power companies operating in this State."

To Prevent the Grip

When you cold come on, stop it by taking LAXATIVE BROMO QUININE and thus keep the system in condition to prevent the GRIP. There is only one "BROMO QUININE," S. V. GRAY'S, signature on box. See advertisement.

## CARDINAL MERCIER SCORES VON BISSING

Letter Says German Rules for Belgium Are Unjust.

BRUSSELS, April 15.—General von Bissing, German governor-general of Belgium, was in receipt today of a stinging letter from Cardinal Mercier, primate of Belgium, in reply to the note which Von Bissing sent him warning the primate to stop alleged political activity. The cardinal's letter declares that the German rules are entitled to no respect because they are unjust. One passage says:

"It was not, Your Excellency may be sure, without deep reflection that we denounced to the world the evils with which our brothers and sisters are overwhelmed—fraternal evils indeed, atrocious crimes, the terrible horror of which no cold reason refuses to admit."

"With regard to Von Bissing's military pomp and circumstance, the cardinal says:

"Allow us then, even smitten as we are by admiration before the warlike pomp surrounding us and the brilliant staff which, like King Saul, you have attached to your person, nevertheless to retain our full liberty of judgment."

## San Jose Raises \$5000 for Great Round-up

SAN JOSE, April 15.—Five hundred San Jose business men attended a meeting of the California Round-up Association in the Chamber of Commerce last night and in fifteen minutes subscribed \$5000 to be used in carrying out the preliminary arrangements of a monster round-up and wild west show to be held in San Jose July 1, 2, 3 and 4.

The greatest enthusiasm was manifested at the meeting. San Jose is planning to spend this year \$15,000 in promoting one of the largest wild west exhibitions ever held on the Pacific coast, and is expected to rival the famous Frontier Show of Cheyenne. All the profits of the show Clarence H. Letcher, John B. Shea, How will be devoted to charity.

The California Round-up Association was organized by Louis Oneal, an attorney with Sheriff Arthur B. Langford, all D. Melvin and Leon Jacobs, with the idea of attracting thousands of visitors to San Jose on the days preceding the National holiday to witness an exhibition of events that made California famous in the days of its infancy.

## Musicians Honor Three From East Bay

Robert Harkins, curator of the Oakland Public Museum, Professor Eugene Neuhaus of the University of California, and Bernard Maybeck, Berkeley architect, will be the guests of honor tonight at the dinner of the San Francisco Musicians' Club, to be held at the Hotel Oakland. The affair is an annual one, and the business of the year will be reviewed.

Professor Neuhaus will be the principal speaker at the evening, telling of "The Correlation of Art and Music."

## 100 Feet of Snow in Plumas County Hills

SACRAMENTO, April 15.—Snow 100 feet deep lies on the north side of Mount Luther, in Plumas county, according to the report of a snow observer in that county to N. R. Taylor, local weather forecaster. This point is in the high Sierras in a country where it seldom rains says the observer. It is the heaviest snowfall ever measured in that section.

MICH. FOREIGN MAIL.  
NEW YORK, April 15.—Unusually large mail from Europe arrived here today on the White Star steamer Cedric from Liverpool, which brought no passengers. The postal consignment consisted of 489 bags of first class and 517 packages of parcel post.

## Mills College Girls to Present Old Morality Play Choral Music Will Accompany Solemn "Everyman"

MARGARET CURTIS AS "KNOWLEDGE" AND CATHERINE SCUDDER AS "EVERYMAN" IN THE PRESENTATION OF THE NOTED DRAMA AT MILLS COLLEGE MONDAY NIGHT.

## Numerous Cast Is Chosen for Dramatic Offering, for Which Women Are Preparing, to Take Place Monday Night

"Everyman," the old allegorical drama of life, will be presented Monday at Mills College, when the girls of the college, under the direction of Prof. E. O. James, will appear in the mystic play. One of the big features of the offering will be the music, a special choir of students being chosen.  
Margaret Curtis, of the class of 1917, will appear as "Knowledge," and Catherine Scudder, who has appeared in a number of amateur affairs at the college, will play the role of "Everyman." An organ recital by Uda Waldrup will be a feature of the evening.  
The cast for Monday night's play is as follows:  
CAST.  
Messenger..... Esther Dayman  
God's voice..... Lucile Parker  
Everyman..... Katherine Scudder  
Fellowship..... Constance King  
Kindred..... Dorothy Hellman  
Cousin..... Margaret Wood  
Goods..... Helen Landon  
Good Deeds..... Inez Neterer  
Knowledge..... Margaret Curtis  
Confession..... Esther Dayman  
Beauty..... Edwina Moyer  
Strength..... Dorothy Smith  
Discretion..... Marian Murdoch  
The Wife..... Edna Carter  
Coach..... Prof. E. O. James  
Choir—Edith Beckett, Edna Carter, Beulah Cardwell, Lucile Robinson, Pearl Bishop, Anne Noble, Elizabeth Fordyce, Helen Davis, Dorothy Smith, Edwina Moyer, Ruth Scudder, Esther McCormick, Fester Thompson, Lydian Tachner.

## Sea Craft Men May Adjust Differences

SAN FRANCISCO, April 15.—Peaceable adjustment of the differences between the unions of sailors, marine cooks and waiters, water tenders and other sea craftsmen and the Ship Owners' Association, appeared probable today.  
A meeting of the ship owners to discuss the demands of these men for higher pay and better working conditions will be called the first of next week. Copies of the demands have been sent to each shipowner for study.  
"As soon as we discuss these demands we will meet with the seamen," said Oliver Olson, president of the shipowners' association today. "We are perfectly willing to hear all of their complaints."

## Yuan Confident Rebels Will Quit

PEKING, China, April 15.—President Yuan Shi Kai expressed confidence today that the difficulties presented by the revolutionary movement in the south would be overcome and harmony restored.  
He asserted disagreements had sprung up among the rebel leaders at Canton and that he was confident the result would be restoration of the allegiance to the Peking government of Kwang Tung province, of which Canton is the capital.

## Loaded Bus Turns Over, Injuring 16

TACOMA, Wash., April 15.—Loaded with Northern Pacific shippers, a large motor bus driven by C. H. Hoag, turned over at a curve on the South Tacoma boulevard today when the car skidded on the wet pavement. The following were seriously injured:  
E. H. Rank, Bert Lewis, Joe Walsh and O. J. Simonson.  
Ten or twelve others suffered minor bruises and cuts, but were able to go to their work at the shops, a few blocks distant, after being cared for by a physician who had been summoned.

## 3527 Recruits Are Accepted in 30 Days

WASHINGTON, April 15.—Results of thirty days' recruiting announced today by the war department for the additional 20,000 men recently authorized by Congress showed 16,617 applications and acceptance of 3527 recruits. During the last nine days San Francisco led with 531 applications and 191 acceptances; Chicago was second with 417 applications and 50 acceptances, with New York third with 400 applications and 59 acceptances.

## Thousands See New Idora Park Beach

Idora, the park beautiful, got away to a good start today. Thousands passed through the gates, patronized the amusements of the day of old, and put their mark of approval on the new Idora beach which has just been completed. Many found their way to the pink and the dance hall; the scenic railway and the race through the clouds had their hundreds of patrons, but biggest of the attractions was the new, beautiful \$10,000 beach, which has just been completed. Early in the day the silvery sands were crowded and hundreds of swimmers, both amateur and professional, tried out the tank and gave it their vote of sanction. This pool, built of concrete, and faced on the edge with tile, is 300 feet long and 75 feet wide, and is said to be the largest and most elaborate outdoor tank in the west. Surrounding it is a big stretch of white sand, and back of this is a board promenade. The walk stretches around three sides of the pool. Still back of it is a high scenic background, which makes the beach proof against winds.  
Forman and his band are playing in their first concert this afternoon. They appeared in the canopied pavilion at 2:15. They will play again tonight and will give a popular concert tomorrow afternoon and tomorrow evening.  
The management was much pleased with the crowd of the early hours today and believes it is justification in part for its prediction of the park's banner year.

## "Villa's Drug Store" Is Prize of War

PERSHING'S CAMP AT THE FRONT IN MEXICO, April 10 (by wire) who participated in that battle.

motor and aeroplane to Columbus, N. M., April 15.—What the American troops call "Villa's drug store" was among the prizes captured after the Guerrero fight, it was learned today from men of the Seventh Cavalry who participated in that battle.

The drug store was a pack mule loaded with quinine capsules, antiseptics and bandages. In addition, the mule carried a quantity of coffee, which the Americans considered of equal importance with drugs in maintaining campaigning.

# -guard against the DANGERS that lurk in bulk ground chocolate

You are never absolutely sure of CLEAN CHOCOLATE unless you buy it in hermetically sealed cans. Bulk ground chocolate is a magnet for flies and other insects, dust and dirt. Ghirardelli's Ground Chocolate, in hermetically sealed cans, is your safeguard. Supreme in quality and public favor, it is absolutely protected against contamination. You are always SAFE when you order Ghirardelli's Ground Chocolate

In 1/2-lb., 1-lb. and 3-lb. hermetically sealed cans. There's a double economy in buying the 3-lb. cans.

## WORLD'S MIGHTIEST LOCOMOTIVES

Great as are the steam locomotives—yet far greater are the obstacles of mountain operation. To successfully overcome these the steam locomotive has had to yield the sceptre to a mightier giant—the electric locomotive.  
World supremacy in locomotives is now held by the powerful electrics of the "Milwaukee" that haul the superb all-steel trains—"The Olympian" and "The Columbian" over the completed unit of the electrified main line of this railway across the Great Continental Divide.  
This supremacy rests on their ability to pull heavier loads with greater speed over the mountains—to master snow and cold—to effect vast economies in operation and to travel farther without overhauling—than any other locomotives, either steam or electric.  
Electric operation adds much to the comforts and delights of travel. It means smoother riding and freedom from smoke, cinders, gases and other undesirable incidents unavoidable with steam travel.  
On your next trip East, journey via the Pacific North Coast and over the "Milwaukee." You will enjoy the combination of luxurious service, electric travel over the mountains and some of the most magnificent scenery on the continent.

## MAYORS NOT TO CALL ELECTION

Utilities Vote Made Dependent on Petition From People.

The city administrations of Oakland, Alameda and Berkeley will not seek to call an election looking to the establishment of a public utilities district for taking over water or other utilities. This was decided yesterday at a meeting of Mayors John L. Davis of Oakland, S. C. Irving of Berkeley and W. H. Bartlett of Alameda. Bartlett, in announcing the decision today, declared that this does not mean that the mayors are not in favor of the move, but simply that they refuse to accept responsibility for calling an election unless the people first show their sentiment by signing initiative petitions.

The public utilities move was started by a league organized among business men and others about the east bay region. The league appeared before the various city councils seeking endorsement, and a request was made that the mayors of the cities meet and formulate plans for an election.

## Bomb Plot Suspects Able to Foil Sleuths

NEW YORK, April 12.—Federal investigators had made little progress in attempts to discover the identity of the men who financed and directed the alleged fire bomb conspiracy to destroy munitions ships. Agents of the Department of Justice said today that the system of the agents alleged to be involved in this country is so perfect that none of the ring leaders is disclosed.

"Those who have a comprehensive knowledge of such an undertaking are high class men who will neither confess nor betray a single secret," said Captain William Coffey of the department. "The men who have confessed are not entrusted with important secrets. For that reason the six confessions we have obtained are of little value in going higher."

The whereabouts of Dr. Walter T. Schele, the chemist who conducted the fertilizer factory in Hoboken where it is charged the bombs were filled with explosives, has not been ascertained by the authorities.

## Crowd Gathers for D. A. R. Convention

WASHINGTON, April 12.—All incoming trains today brought delegates to the National Congress of Daughters of the American Revolution which will convene in twenty-fifth annual convention here Monday. Mrs. William Cummins Story of New York, president-general of the society, will preside. Features of the convention will include a dinner by President Wilson on Monday afternoon, a session devoted to a discussion of national preparedness at which Hiram Maxim and others will speak, and a reception by President and Mrs. Wilson Thursday afternoon in the White House.

## Eloping Heiress 'Steals Back Home' "Dead" Bridegroom Believed Myth

MISS BERNICE MEEHAN, FRESNO BEAUTY, ABOUT WHOSE MARRIAGE IS DRAWN A VEIL OF MYSTERY.

## While Father Goes East Seeking Her, She Returns Voluntarily to Family

FRESNO, April 12.—Returning apparently untroubled to her home after friends and parents had believed her ensnared by "white slavers," Bernice Meehan remained in her room today and refused to talk about her reported marriage to Lloyd Harrison Barnhart.

A week ago the girl left home, went to San Francisco, returned and exhibited a marriage certificate, saying she had been married at St. John's Episcopal church in San Francisco. Then she departed on a supposed honeymoon and telegraphed to her father from Colorado Springs that her husband had been killed while riding horseback.

Investigation revealed that no such accident had occurred there and that the girl had registered at a hotel alone under the name of Mrs. Barnhart. Other mysterious features developed.

Bernard Meehan, the father, started for Colorado Springs last night to hunt for his daughter, and shortly afterward she stopped from a train here and went home.

Neighbors who were in the house when she arrived declared she adhered to her story, asserting flatly that she had been married and that her husband had met death in a riding mishap.

The girl declares that she and Barnhart met at the Girls' Collegiate school in Los Angeles, where she and Barnhart's sister were chums. She declares that they were married at St. John's church in San Francisco on April 5.

There is no record of the wedding, nor of the death of the husband in Colorado.

## Crusade Begun on "Wet" Doctors Prescriptions Violate Law, Is Charge

SEATTLE, April 12.—Prosecuting Attorney Alfred Lundin announced today the start of a vigorous campaign against doctors who write the prescriptions for liquor which give saloon drugstores their legal excuse for existence.

Dr. W. O. Emmons, with offices in the Right Hotel, was arrested after he had given a prescription for whiskey to Police Sergeant Fred Smart.

Smart, who declares he is in good health and that the doctor had no reason to believe otherwise, took the prescription to a drugstore and had it filled.

The prohibition law provides that any physician giving a whiskey prescription without good reason to believe the applicant is ill, shall have his license revoked.

Judging from some of the prescriptions found at one drugstore, the use of liquor for medicinal purposes has become immensely popular since January 1.

One prescription called for twenty-four quarts of beer, to be used to cure a headache.

Upon others liquor was prescribed for "fatigue," "weakness," "use as directed," "nightwork as directed by physician," "whisky to be applied locally," etc.

The prosecutor also said today he would instruct deputy sheriffs who participate hereafter in liquor raids to yank out bars and fixtures before the proprietor has time to go to court and get a restraining order.

Judge Ronald, in the superior court yesterday, refused to permit deputies to remove the bar and mixtures from the James Street Drug Store, raided by Judge Ronald's order draws the teeth out of the prohibition law.

## Los Angeles Divorces 2 to 1 Over Marriages

LOS ANGELES, April 12.—"Los Angeles will naturally itself within a few years if this record is kept up," said Recorder Sparks today, posting the record of seven marriage licenses and fourteen divorces suits filed here yesterday.

## MISS BLANCHE MORSE BECOMES APOLOGIST

Explains What She Meant by Speech Which Other Women Heard

That the use of epigram at the expense of fact is sometimes unfortunate and that clever effect, while appealing to the rigidities of an audience, is likely to seem overdone for the mere purpose of sensation, was sufficiently demonstrated yesterday afternoon by Miss Blanche Morse, one-time candidate for county superintendent of schools, who, in opening her address on a political issue, begged of the members of the Oakland Center at the Hotel Oakland that she be allowed the privilege of correcting an impression she had conveyed on Wednesday before the Oakland Club, when she said from the platform that "rowdys" were "everywhere in the Oakland schools" and "what Pabst has been to Milwaukee the Gary system has been to Gary."

When her Oakland Club speech was quoted abroad by those who had been in attendance and was printed in THE TRIBUNE, the sense of the "rowdys" and Pabst reference appeared to remain, while the rigidities refused to respond, with the effect, as Miss Morse explained yesterday, that she was cautioned by many educators and acquaintances for what appeared to be brusque criticism of pedagogic theories.

HER ASSURANCES.

The not result was a complete re-statement, under a rule of personal privilege, in which she declared that she had not meant to be quoted as she had been quoted and that she was highly suspicious of the veracity of the press writers.

"I assure you," she declared, "that I was deliberately misquoted; that I did not say the things credited to me and that I have made no such attack on the Oakland school system."

Several prominent members of the Oakland Club remember distinctly having heard Miss Morse say that there was "rowdys" in the Oakland schools last Wednesday, though Miss Morse herself denied it yesterday.

Mrs. Nellie Nelson, vice-president of the club during the last year, is one of these.

"Oh, yes," she said this morning, "Miss Morse made that remark. It was after she said 'I'm afraid there is a newspaper reporter in the house.'"

Mrs. Nelson added that she could appreciate the position of that reporter.

Though objecting to being

mentioned, Mrs. J. Moran, recording secretary of the club, also remembered hearing Miss Morse say that there was rowdys in the schools.

"In fact," she said, "I made note of it, especially."

Another Oakland Club member who recalled hearing Miss Morse speak of "rowdys" was Mrs. George Hallahan, Princeton apartments. After stating that she also remembered hearing the former candidate for the county superintendency of schools declare "What Pabst is to Milwaukee the school system of Gary is to that city," as well as other remarks quoted, Mrs. Hallahan commented:

"What Miss Morse said didn't offend me. But I didn't like the idea of comparison between our schools and that of Gary. You couldn't compare them."

A PREVIOUS CASE.

This is the second time that Miss Morse has taken exception to reports of statements which she was said to have made. At one time she protested the appearance of members of the Berkeley Gymnasium Club in bloomers in a public exhibition of the club's work; she was widely quoted.

After her views had been given state-wide publicity she denied a number of statements ascribed to her and the newspapers of the bay cities for a week gave much space to the consideration of her exact opinions as to bloomers, girls and public exhibitions. The club went ahead and gave the show to record attendance.

Miss Morse made the following statement today:

"In talking at the Oakland Club on Wednesday on the subject of the school system at Gary, Ind., I drew attention to the fact that education goes on upon the playground as well as in the school room. Play upon school grounds which are properly supervised, has an educational value which is entirely absent from the ordinary rough and tumble play on the average school ground. Visit your own school grounds and see what sort of play goes on there."

"In my talk I also made this statement: 'The purpose of education is to connect it with life, not with the industries; a school system which connects education here with the industries, there with the professions, here, again,

## Crest of Flood Reaches Clinton, Ia.

CLINTON, Iowa, April 12.—The Mississippi river here has risen only 4 of a foot in 24 hours and it is believed that the crest of the northern flood waters have reached Clinton. Lowlands are flooded and many basements in the city are filled with backwater from sewers.

with a life of leisure, is not a democratic system."

"My whole purpose was an exposition of the school system of Gary, Ind. In no sense was it an attack on the Oakland school system and reference was made to it merely for purposes of comparison."

## Japanese Friendly to U. S., Says Grant

PORTLAND, April 12.—Japanese citizens of every class admire Germany and her war achievements. The ruling Japanese are imbued with the same warlike spirit that characterizes the Hohenzollerns, and are anxious to increase their dominions. But there are no signs of an unfriendly feeling toward America. This news is brought to Portland by U. S. Grant Jr. of San Diego, Cal., who has arrived from an extended tour through the Far East. Compelled to go to Japan by way of Sydney, because the steamers running from Honolulu to Yokohama were crowded, Grant studied conditions in the Australian metropolis at first hand.

## "Sorry, Old Man I Bought by Telephone"

The sales manager of a large Western concern sold an order of goods by telephone to a small town merchant just ten minutes before the arrival of a traveling salesman of a competitor. Many business men have adopted this "Long Distance" telephone selling campaign over our lines reaching 1800 cities and towns in California, Oregon, Washington, Idaho and Nevada.

The Pacific Telephone and Telegraph Company

You can see the streets of San Francisco on a clear day

Oakland City Hall close in and in plain sight

Some of the Lakeside Homes For Sale by Wickham Havens Inc.

Wouldn't you like to live 5 minutes' walk from Lake Merritt and its parks?

Complete! Ready for your inspection! Come and see them Sunday!

Several beautiful moderate-priced homes right on Mandana Boulevard.

From the door-steps you see the Oakland City Hall—only 14 minutes distant by car.

In clear weather you can see the streets of San Francisco.

Parks and Lake only five minutes walk.

All around you are scores of fine homes of the famous Head of the Lake District.

Two blocks away is Crocker Highlands with the finest homes built in Oakland in recent years.

Mandana Boulevard, on which these new homes are situated, is 100 feet wide and one of Oakland's finest avenues.

These homes are therefore ideally situated, in a region of parks, boulevards and lake, close into the center of town.

The prices are bedrock; small payment down, balance like rent.

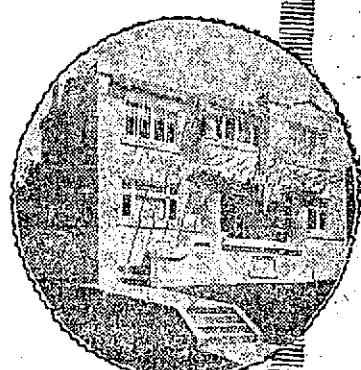

See them Sunday.

Take the Lakeshore Ave. (Mandana) cars at Fourteenth and Broadway and ride past parks and Lake to terminals and see these beautiful homes and the wonderful development that is taking place in the Head of the Lake District.

Or call and we will gladly place an automobile at your disposal to inspect these homes.

Office open all day Sunday.

Wickham Havens Incorporated 1308 Broadway

### DESCRIPTION:

Eight rooms, bath, shower and sleeping porch; living room, dining-room and breakfast room in Southern gum; hardwood floors upstairs and down; fireplace built-in bookcases and buffet; two complete plastered rooms in basement with shower; separate toilet; 50-ft. lot; room for garage. Price all inclusive. Terms down and \$50 a month buys this beautiful home.

Easter Gifts for Tots and Grown-Ups

Prettier than ever are shown—from fluffy rabbits in all sizes, to the beautiful gift boxes and baskets packed with our distinctive Chocolates and Bon Bons. These beautiful novelties have to be seen to recognize their beauty.

Oakland's fastest-growing bank. Security first. Always glad to see you.

# The Meddler

Alice Warner was a Del Monte star, was "off her game," in golf parlance.

Mrs. Fred McNear in a dream of a white Italian silk costume was greatly admired. It wouldn't have mattered how she played, though she did play well. Her skirt was dead white and so was her hat, and her silk coat was striped broadly with black. But it's the way she wears things.

Mrs. Gus Taylor, who is Mrs. McNear's sister, and of the divinely-tall-and-most-divinely-fair type, was likewise in white, with a purple silk hat, and her sweater banded in purple. Mrs. Douglas Grant of Burlingame wore white and Mrs. Rothchild's white sweater was striped with green.

ceremony there was an improvised altar in the living room with the pale pink flowers against a background of maple leaves and fernery.

For all this loveliness it was rather a simple wedding with an attractive informality. Everyone knew everyone else there, and half the guests were relatives or family connections. The Miller clan is a numerous one.

Miss Mhoon was the most unaffected and charming of brides in her white cloth suit and a very becoming hat of Copenhagen blue straw with blue wings. She carried a sheaf of American beauty roses laid across her arm instead of the conventional bouquet. Her brother, McKee Mhoon, who came from his ranch in the

afternoon gown, a black picture hat, and a stunning white fox fur across her shoulders.

Most of the women guests from San Francisco wore tailor gowns, and the men came in informal attire. The groom wore a sack suit. It is very encouraging, the way frock coats are being avoided even for the smartest afternoon affairs. Mrs. C. O. G. Miller and Miss Leslie Miller had cloth tailored suits. Mrs. Bernard Ford wore an afternoon gown of mid-night blue Georgette with a blue hat.

The Oakland girls, Miss Ruth Valentine, Miss Beatrice Simpson, Miss Elsa Schilling and Miss Pussy Creed among others, wore pretty white lingerie frocks and summer hats.

worn with a broad hat of pale pink tulle. Mrs. Lucie May Hayes had an unusually pretty rose pink gown of Georgette with a becoming black picture hat.

But Mrs. W. G. Henshaw wore the thrilling costume of the day. A wonderful jade green Georgette crepe affair with iridescent embroidery and bands of brown fur, and with a hat of brown straw. She was striking again at Mrs. John L. Howard's luncheon on Wednesday, in an embroidered lingerie gown in a soft cream tone, and a flower hat. No denying, Mrs. Henshaw does know how to dress.

Other guests at Mrs. Walsh's luncheon were, Mrs. Victor Metcalf, Mrs. John L. Howard, Mrs. Henry

Butters and Mrs. Kohl being in the lead were really in danger. Mrs. Butters fled to an end of the pasture where a flame stopped her progress. But rescuers drew her up and over it to safety.

It was an exciting affair. Everyone forgot the beagles for a time, and the gentle sport of hunting rabbits.

Later this was resumed. Apropos, Tommy Driscoll's pet rabbit was run down the other day, to the intense disgust of young Driscoll whose mother is one of the beaglers. He said the dogs ought to know a pet bunny from a wild Jack Rabbit and if they didn't, why didn't they get better beagles.

But according to an authority, there are not enough Jack rabbits to

the menu. The guests were: Mrs. Henry Seth Deming, Mrs. Henry Meek, Mrs. Charles Minor Goodall, Mrs. John L. Howard, Mrs. W. H. Morrison, Mrs. Alexander Marks, Mrs. Charles Houghton, Mrs. John R. Burnham, Mrs. Charles Rodolph, and Mrs. Lillian Brown Everts.

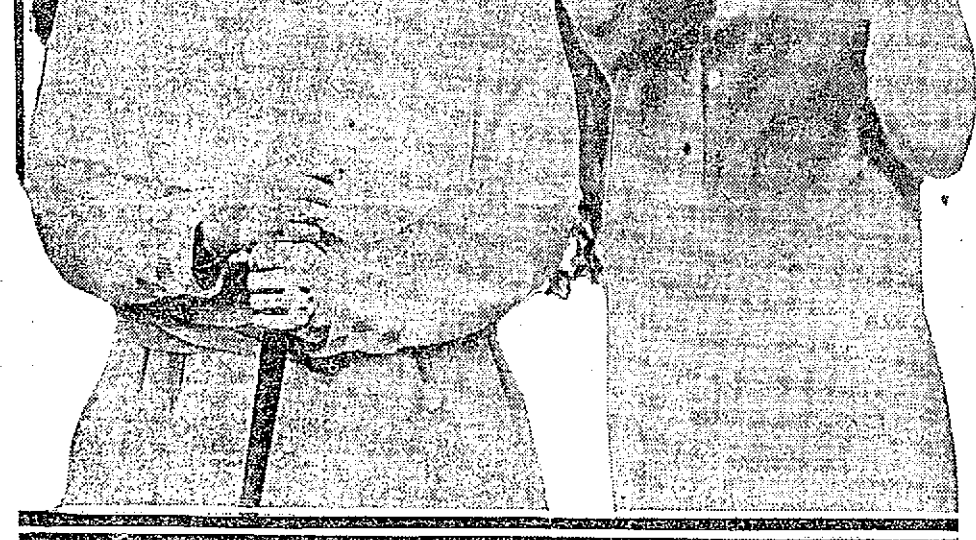

Yesterday afternoon Mrs. Lucie May Hayes had a few of Mrs. Charles Keeney's intimate friends to make up a table of bridge at her bungalow in East Oakland. It was merely an informal afternoon at cards with tea later, for Mrs. Keeney, Mrs. Alla Chickering, Mrs. Frank Hunt Proctor and Miss Clarissa Lohse.

Another small bridge party of yesterday was given by Mrs. Edson

**W**ITH perfect weather and the jade green hills that are like a great necklace about Elmhurst, the Sequoyah golf tournament on Wednesday was esthetically a success, when the gay colors and flashing white of sports costumes scattered over the links.

SOCIETY AT THE SEQUOYAH COUNTRY CLUB. IN THE GROUP ARE MRS. FRED MCNEAR, MRS. DENNIS SEARLES, MRS. CLINTON WALKER, MISS ALICE KNOWLES, MRS. MAX ROTHCHILD, MRS. DOUGLAS GRANT OF BURLINGAME AND MISS DOROTHY DEMING.

MRS. J. D. GRISSIM, ONE OF THE GOLF STARS IN THE SEQUOYAH TOURNAMENT.

MRS. CLINTON WALKER, WHO PLAYED IN THE GOLF TOURNAMENT AT THE SEQUOYAH CLUB ON WEDNESDAY.

Worth the trip from Burlingame, with the inducement of keen golf, and a country club luncheon, though no one considered the luncheon, of course. Still it was gay and interesting. Tables all over the club. The golf stars had one at which visitors from San Mateo, Menlo and San Francisco were entertained, and others were in the living room and about the piazzas.

It was after one before they "played off," and the start was exceedingly pretty. The presence of so many stars and winners of trophies inspired quite a gallery, that trailed the players about the course. In the living room or on the terrace until the players struggled in with their scores, and silver cups were passed around. There were five of them. The five lucky winners, Miss Sadie Deming of the Bereford club who carried off honors of the day, Mrs. Othello Scribner who plays a keener game than her dashing young niece, Marion Crocker; Mrs. F. D. Newbury, Mrs. Cleveland Forbes, and Mrs. Harvey Lindsey.

Afterward at tea there was much discussion of the contest. Mrs. Max Rothchild of Burlingame put up an excellent game and just missed a trophy. But Mrs. Hubert Law who as

Mrs. Dennis Searles wore a tailor made sweater of soft violet cloth with a pale blue silk sports hat and looked extremely smart, and Mrs. Emery Smith who was her guest, was a contrast in rose silk with a rose hat.

Miss Alice Knowles was a flash of blue on the links. Her wool sweater was of clear blue, with white skirt and hat. Mrs. J. D. Grissim wore one of the prettiest costumes of the day, a white skirt with pale rose silk coat banded with blue, and a hat of pink and pale blue.

Mrs. Clinton Walker's white hat was faced with pink to match her coat, and Miss Dorothy Deming was dazzling in stripes, a Roman striped skirt and coat and yellow sports hat. All of these and others contributed to the esthetic effect of the day.

**QUAINT DETAILS AT MOON-FAIR WEDDING.**

The Mhoon-Fair wedding—what a pretty name, Marjorie Mhoon Fair is—on Tuesday was a smart affair, and a really beautiful wedding. It was at the Horace Miller home in Piedmont where garlands of roses twined columns and chandeliers and were festooned over the rooms until it was like a Greek festival of flowers. The larger roses were gathered into broad gilded baskets, and for the

south for the wedding, gave her away.

There were a number of quaint and pretty details about the wedding. The prie-dieu on which the young couple knelt at the ceremony, was one used at the marriage of Mrs. Mhoon, and had belonged to the bride's grandmother, the late Mrs. Miller. It has served at most of the weddings in the Miller family for two generations, a low old-fashioned seat, with beaded covering,—the sort that great-grandmothers used to "head" in their idle afternoons.

One of the souvenirs in the bride's cake was a "thru-penny" piece Mrs. Mhoon found in London years ago, and has kept for a luck piece. It fell to Miss Elsa Schilling at the wedding breakfast. Mrs. Arthur Fenimore of San Francisco cut the ring, a gold band set with turquoise, a very worth-while trophy, and Miss Beatrice Simpson found the little silver horseshoe for luck. Miss Leslie Miller cut the thimble which has not the slightest significance.

Mrs. Mhoon was very patriotic in a gown of black gullupure lace over black chiffon that had a foundation of white silk.

Mrs. Fred Magee, who was Belle Mhoon and the beauty of the family, was lovely in a white Georgette dress

For the wedding breakfast, there were small tables set through the rooms except in the diningroom where the bride's table seated a number of her intimate friends. It was especially lovely to look at with gold baskets of Duchess roses, forget-me-nots, white wistaria and orange blossoms in Dresden colors, and twined with Dresden garlands. With the artistic effect of the flowers, a beautiful old Dresden table service was used.

Among those at the bride's table were Rev. Arch Perrin who officiated at the marriage, Mr. and Mrs. Bernard Ford, Mr. and Mrs. Arthur Fenimore, Miss Leslie Miller, Miss Beatrice Simpson, Miss Ruth Valentine, Miss Elsa Schilling, Miss Flora Miller, Sherwood Chapman, McKee Mhoon, Henry Taylor and Walter Schilling.

Mr. and Mrs. Fair are spending a honeymoon "somewhere in the south" and are to go directly to their new home in Claremont on their return.

## ELABORATE LUNCHEON AT "MAHUAHA"

Another event of Tuesday was the luncheon given by Mrs. Edward Marion Walsh who entertained 25 guests. But the dining room at "Mahua" is large as the dining hall in a baronial castle. The great round table was not in the least crowded. It was a stunning party with some of the season's handsomest costumes present and the most wonderful arrangements in broad low baskets for decorations. There was a great centerpiece of the flowers in shades of purple from a deep velvety purple to the pink and blue tones of lavender and white. Purple and white iris and golden yellow tulips were among them, and smaller baskets of the flowers were set about the centerpiece, with ribbons of yellow tulle.

Mrs. Walsh was a charming hostess in a black crepe gown with white tulle and silver embroidery, and among the guests were a number of lovely white costumes. Mrs. George Hammer was very pretty in white lingerie effect with a white hat. Mrs. Charles Minor Goodall was in white, and Mrs. Frank Havens, very smart in a modish white suit and black hat.

Mrs. Robert Hilliard Collins was in white, a Georgette crepe frock

Meek, Mrs. Tyler Henshaw, Mrs. Timothy Coogan, Mrs. Giles Easton, Mrs. Charles Houghton, Mrs. Nicholas Acker, Mrs. Thomas Crellin, Mrs. August Schilling, Mrs. George Wheaton, Mrs. E. A. Heron, Mrs. Charles Rodolph, Mrs. John R. Burnham, Mrs. Edward Lacey Brayton, Mrs. Andrew Simpson, Mrs. D. R. Mathes, Mrs. A. T. Ellis, and Mrs. Hayward Thomas.

## MRS. HOWARD'S LUNCHEON EVENT OF THE WEEK

The loveliest flowers decorated the table for Mrs. John L. Howard's luncheon on Wednesday. There is a famous rosary at the Howard home which has been Mrs. Howard's pride for years. Every rose that blooms in California blooms there. For the luncheon they filled the rooms, though the blossoms used on the table were rare flowers from the gardens of Mrs. Howard's daughter, Mrs. Duncan McDuffie in Claremont. Mrs. McDuffie was ill that day and missed the luncheon and Mrs. Howard received alone, wearing a most becoming gown of black and white. Some of her guests were:

Mrs. Victor Metcalf, Mrs. Edward Marion Walsh, Mrs. W. G. Henshaw, Mrs. Tyler Henshaw, Mrs. Nicholas Acker, Mrs. Lucie May Hayes, Mrs. Harry Smith, Mrs. Noble Newsom and Mrs. Henry Meek.

## EXCITING ESCAPE THRU THE BEAGLES.

How Mrs. Charles Butters and Mrs. Fred Kohl escaped with their lives in a beagle hunt is being told on country club piazzas from Menlo to Claremont.

It was in a hunt last week. Mr. and Mrs. Butters are both enthusiastic beaglers and have gone down to Burlingame for several of the meets. The other morning the chase led through a pasture where a cow was grazing. She was not the kind faced cow of tradition. A mean eyed cow, that looked up at the interruption to her grazing, and literally glared at the intruders. Evidently hostile.

Most of the beaglers paused. But with her usual aplomb and savoir-faire, Mrs. Kohl said, "Nonsense. No danger. We'll go on," and the chase continued.

It annoyed the mean eyed cow and she charged. The beaglers scattered

keep the dogs busy. They probably hunted Tommy Driscoll's bunny in sheer desperation. This, however, is the theory of a non-beagling cynic.

## AL FRESCO WEDDING AT THE PINES.

There have been several informal parties for Miss Kate Bennett and her fiancé, Henry Brizard, this week. They are to be married on May 28 at an al fresco wedding at the Pines where Miss Bennett who is Mrs. Bowles' niece has lived for several years. Brizard returned a day or two ago to his home in Arcata, but will be in Oakland again before the wedding which is to be quite a large affair.

Society recalls the marriage of Miss Amy Bowles and Hiram Johnson, Jr., at the Pines four years ago, with the reception in the garden. Miss Bennett is planning a ceremony under the trees, and with her artistic taste to arrange the setting it will be one of the picturesque weddings of the year.

## YOUNG MRS. HENSHAW WILL BE MISSED.

Pretty Mrs. Tyler Tubbs Henshaw with her winsome personality will be missed in society this year. She left on Thursday for the South for an indefinite stay and is to devote much of her time in Los Angeles to study. She will have her voice trained under Ellen Deach Yaw and will probably be heard in concerts in the South.

On Wednesday Mrs. Henshaw gave the last of several informal farewell teas at her home in East Oakland. Her mother, Mrs. Charles O'Connor, assisted her to receive and entertained the guests with several delicious Irish monologues. They were keen and irresistibly amusing and Mrs. O'Connor wrote them herself.

Some of the guests on Wednesday were Miss Farrier, Miss Annie Farrier, Mrs. Rushworth Nicholson, Mrs. Reginald Foster, Miss Celia Burnham Seymour, Mrs. Tracey Crawford, Mrs. Edmund Taylor, Miss Peggy Pope, Miss Emma Badger, Miss Mary Wood and Miss Norma Umphred.

## OTHER GAYETTES OF A GAY WEEK.

Mrs. Acker's luncheon yesterday was a pretty affair at the Acker home in Linda Vista, where bridge followed

Adams for an intimate coterie of friends.

The last of the week's gayeties will be a dinner dance at the Wickham Havens home this evening. A proper ending.

## MULFORD COLLINS IS HOST AT PARTY.

For the very young set there was a thrilling party last Saturday afternoon when Mulford Collins celebrated his 11th birthday. Fifty boys and girls were his guests at "Mulford Farm," and a number of mothers who motored out to San Leandro with them were entertained at bridge by the host's mother, Mrs. Robert Hilliard Collins.

For the children, the rooms with hardwood floors had been cleared for dancing and there was an orchestra to play for them. Bridge tables were set on the lawn, where rugs and davenport from the house made a charming at fresco drawing room under the trees.

Late in the afternoon tea was served in the garden and the entrance of the birthday cake was an event. It came in on the tea wagon riding splendidly to a height of five stories, the top blazing with candles and the base wreathed with flowers. A culinary triumph that was drawn about so that everyone had a fair view of its glory before the cutting. It was a pretty party and the children were quite as diverting as bridge to the grown-ups. Little Miss Antonette Gilman and Carolyn Rodolph were among the belles.

## MISS BANCROFT IS LATEST ENGAGED GIRL.

The latest engaged girl is Miss Evelyn Bancroft, grandniece of the historian who founded the Bancroft library in San Francisco, and daughter of the Harlow Palmer Bancrofts of Oakland. Her fiancé is Dr. Justin Hartley Moore of New York.

Miss Bancroft is a clever girl who made a record at college and has been twice around the world. She was one of the popular sorority girls at the University of California. Most of her family are especially clever. One of her cousins is Mrs. Alberta Bancroft Read, who has written plays and essays for the Atlantic and was

## ENDORING HIS OWN PLAN.

Governor Johnson's endorsement of the hydro-electric ticket of candidates for delegates to the Republican national convention given out by the Governor yesterday, is not news. The Governor put his O. K. to the scheme when it was first conceived, as every one who has followed attentively the political developments since the enactment of the non-partisan registration law well knows.

The so-called "United Republican" movement was planned in the interest of Johnson's candidacy for the vice-presidency, and is being so prosecuted. Naturally Governor Johnson is for it. It is a waste of time and a weak bid for campaign material to announce formally at this late date that he indorses the campaign of the hydro-electrics which his advisers planned.

Political respectability—and the Governor has preached much of that—would require that he be satisfied to see the Progressives send a delegation to their convention, a delegation selected by the party organization, as has been done; that the Republican organization send a delegation to the national convention of the Republican party, as it has planned and arranged to do.

All discussions of compromise and uniting to support one presidential ticket will be had after the national conventions organize. It is not the proper course to start pre-convention factional fights in the primaries. The factional fight which Governor Johnson has fostered and approved in this state will not strengthen the position of either Progressives or Republicans at the national joint conventions. It will unquestionably weaken Governor Johnson before the Republican national convention, a fact which many of his real friends recognize. Republicans throughout the United States, familiar with the disfranchising of Republicans in California in 1912, are likewise informed as to the procedure followed by the state administration this year in so juggling the election laws as to make the primary a farce and permit Progressives, with no contest within their own ranks, to vote the hydro-electric ticket, which occupies a place in the "Republican column"—practices indulged in when Chris Buckley held sway in San Francisco.

The Governor's statement that the Earl ticket is designed to bring Republicans and Progressives together nationally is a flagrant sophistry. One administration newspaper which has given the hydro-electrics their chief support declared editorially this week against amalgamation of the Progressives and Republicans at Chicago. The hydro-electrics were not conceived in a spirit of harmony; they were banded together to embarrass, if possible, a great body of partisan electors who were unjustly deprived of their right to vote for their candidate in 1912. It was born under the shadow of the "big stick" of patronage and interlocking political and business interests.

## SUBMARINE CRISIS REVIVED.

The crisis between the United States and Germany over the submarine question appears to be revived in all its threatening aspects. The government at Washington apparently is convinced that the merchant steamer *Sussex* was attacked by a submarine in the English channel to the danger of the lives of American citizens.

If this is so, our warning, voiced at the time the McEmore and Gore Resolutions were voted down, that a repetition of attacks on a merchant vessel, armed for defense or unarmed, with American citizens aboard would be difficult of settlement through the ordinary channels of diplomacy will, we fear, be verified. The American policy that American citizens shall have the right to travel on belligerent merchant vessels has been endorsed by Congress, and has been advertised to the world. It is a policy resulting from the American interpretation of international law.

In addition Germany gave assurances that such an offense as the State Department appears to believe was committed in the disabling of the *Sussex* would not be repeated. It would not serve to clarify matters if it develops the German government has broken its written word to the United States.

There is still the hope that Germany will denounce the violation of international law and punish the individual offenders. That is one way out of an extremely delicate international

situation. If there is another way we hope that cool heads will try to discover it.

Endangering of lives of Americans who voluntarily took passage on a channel steamer plying between belligerent ports in an active and highly dangerous war zone would not, if it stood alone, be reasonable grounds for the rupture of friendly relations with Germany and American sentiment would not approve of such an outcome. But the attack on the *Sussex* does not stand alone; it was the manifestation of a policy that is menacing the interests and the peace of neutrals because it violates the law of nations. Furthermore, Congressional interference and criticism have shaped a narrow course for the President. The peace-at-any-price propagandists in Congress have, as foolish persons often do, made it vastly more difficult to avoid the very thing they pretended to fear.

## TALK, BUT BE ON GUARD.

Despatches from Washington indicate that the administration assumes the position that, while it is willing to discuss with First Chief Carranza the question of withdrawal of the American punitive expedition from Mexico, it will not consider withdrawal until the object of the expedition has been attained. This is the proper course. We believe the President was justified in dispatching a force to capture the raiders of Columbus without waiting for the consent of any incompetent de facto authority in Mexico and we urged that such action be taken. No one has seriously questioned the wisdom of that course, but whatever may be said in favor of an alternative, the expedition, having been started, should not be abandoned under any circumstances until Villa is taken.

Secretary of State Lansing is taking the generous and courteous course with Carranza in offering to continue negotiations over his arbitrary demand that the American forces withdraw. It offers a means for saving Carranza's "face." But if he persists in the arbitrary attitude taken in his demand for withdrawal it will be a fatal waste of time to parley with him.

We should remember the defiance of Carranza when the Pan-American conference of diplomats tendered their good offices in a plan to restore order in Mexico. He was arrogantly insulting and President Wilson's recognition of his authority remains a mystery.

We do not believe Carranza will be willing to grant a reasonable time for the accomplishment of the purpose of our intervention in his government's affairs. Therefore, we should prepare fully to go ahead with the hunt for Villa and his fellow bandits without Carranza's consent.

That will mean intervention of such seriousness that even the administration will have to admit of the appropriateness of the term. It will mean prolonged occupation of Mexican territory with a large military force. No matter what others may wish, President Wilson is anxious to get out of Mexico as soon as he possibly can and Carranza can save the situation by honestly co-operating with the campaign against outlaws. But we cannot expect him to help, or long to remain passive.

Let General Funston be given authority to deal with the situation from a military viewpoint and let him be furnished as many of the available soldiers in the United States as he thinks needful.

## NEW COLLEGE COURSE.

University of California is to be the first educational institution in the world to include a course in criminology and police methods in its curriculum. The new feature will be inaugurated during the summer session. Chief of Police Vollmer of Berkeley, who has gained international fame as a police executive, will give a course of lectures on the practical work and distinguished educators will lecture on criminal law, neurology, sociology and psychology.

It is timely to start scientific methods and bring greater knowledge and intelligence to the administration of police authority. Police organizations are a heavy charge on the taxpayers of every municipality and in fully ninety percent of the cities they are giving a lamentably inadequate return in efficiency. Progress in prevention of crime and in apprehending criminals has lagged. The ordinary police mind has not shown as much success as it ought to in combating criminal cunning; nor have the police, as a general rule, done as well as many think they should in that other important line of their work—the treatment of minor and juvenile offenders with a view to their reformation.

The wide application of the civil service to police forces has done much to separate position from politics and the logical next step is the higher education of the policeman. Colleges and universities will in time, we predict, give the subject of crime and police methods as constant attention, if not as serious, as they now give to medicine, hygiene and economics. Berkeley has demonstrated the value of intelligence in police work and it is fitting that the State University, close to a well-nigh model police department, should lead in study and education in police problems.

A German dramatic company is touring Holland giving a repertoire of plays that includes Shakespeare's "Macbeth" and "As You Like It," and tragedies from Schiller, Lessing, Hauptmann and Strindberg. There is some consolation in the knowledge that people won't include us in their songs of hate three hundred years after we are dead.

# NOTES and COMMENT

Senator Borah advocates more navy and less army. Move to amend by substituting "Danels" for "army."

It is beginning to look as though this government might as well have taken the Mexican bull by the horns at the outset.

The Hon. Victor Murdock of Kansas is mentioned in a political way a hundred times a day, and not one of the notices omit the particular that he is red-headed.

Oakland ship yards are having the time of their lives, to put it that way. Their remarkable activities are merely showing the way. All Oakland industries are quickening.

All sorts of strange things are reported from Oregon since the lid went on so tight. Ground squirrels are now accused of spreading spotted fever, which has become epidemic.

Interesting testimony at a divorce trial in New York: A witness testified that the defendant wore "lights." That would not seem to be cause of action in New York, though admittedly unusual.

One of the war babies is sickening—quicksilver. There is not an oversupply. But a substitute for it has been found for munition manufacture. Perhaps some other of the inflated infants will go the same way.

Officers of the army are cutting short their leaves of absence, and there are other signs that Uncle Sam's land forces are preparing to take the field to the last man. There is a fine prospect of some watchful fighting.

The "handful king" now has opportunity to wear other than a trick pair. He has been arrested for divers infractions of the law. The many who saw him here as "Alexander" may perhaps wonder why he doesn't wear his wand and dissolve the situation.

The "white collar" job is the one that doesn't come in contact with the smut of the shop or the grime of the soil. The New York official employment bureau is made prominently aware of this fact in its effort to connect up the jobless man with the manless job.

The city could do a much less sensible thing than purchase the Joaquin Miller place. It is considerable in extent and commanding an fine view, and its owner was a literary celebrity, with a world fame that would render his abode a shrine to be visited by many who fare this way.

The Fresno husband who agreed to shut his eyes for months as a joke test—having been chided for looking at other women—and found his sight gone when he thought he could safely look, did not get served right, perhaps, but affords a lesson to others not to enter into such rash agreements.

The Willamette university students appear to have just got around to that very ancient college prank of getting a cow into the chapel. In older and more exuberant times it had whatever humor there is to cowplay, which is a close sister to horseplay. It doesn't seem to be real funny nowadays.

The Goldfield Tribune sees trouble in this paragraph: "The railroad managers and the railroad brotherhoods are talking to each other like the intractable force and the immovable obstacle. And if they really clash the American public will be drafted for the always calamitous role of innocent bystander."

The case with which California municipalities may incur indebtedness and the indifference of those upon which the burden falls, is responsible for an increasing load that is beginning to attract the attention and raise the apprehension of financiers. Taxation has increased one-third faster than taxable property. It would seem to be a subject for serious thought.

In this tolerant land, where small stress is laid upon names, we have no idea of the persecution in other countries of account of names and lineage. Germans in England and her dependences, and even Americans who have inherited German names, are ruined in business. And Englishmen in Germany—there are none aside from prisoners of war.

## SPIRIT OF THE STATE PRESS

A woman wants to know why she should be debared from saying "damn" when so inclined. Who debars her?—Colusa Sun.

Sam Bruse has purchased an acre lot from P. L. Vaughan.—Parlier Progress.

There seems to be an idea that we are sore on El Centro over the soldier business. No, indeed. We are not even worrying about it and not even saying how absolutely ridiculous some of the antics of the big town over the soldiers really struck us and others.—Holtville Tribune.

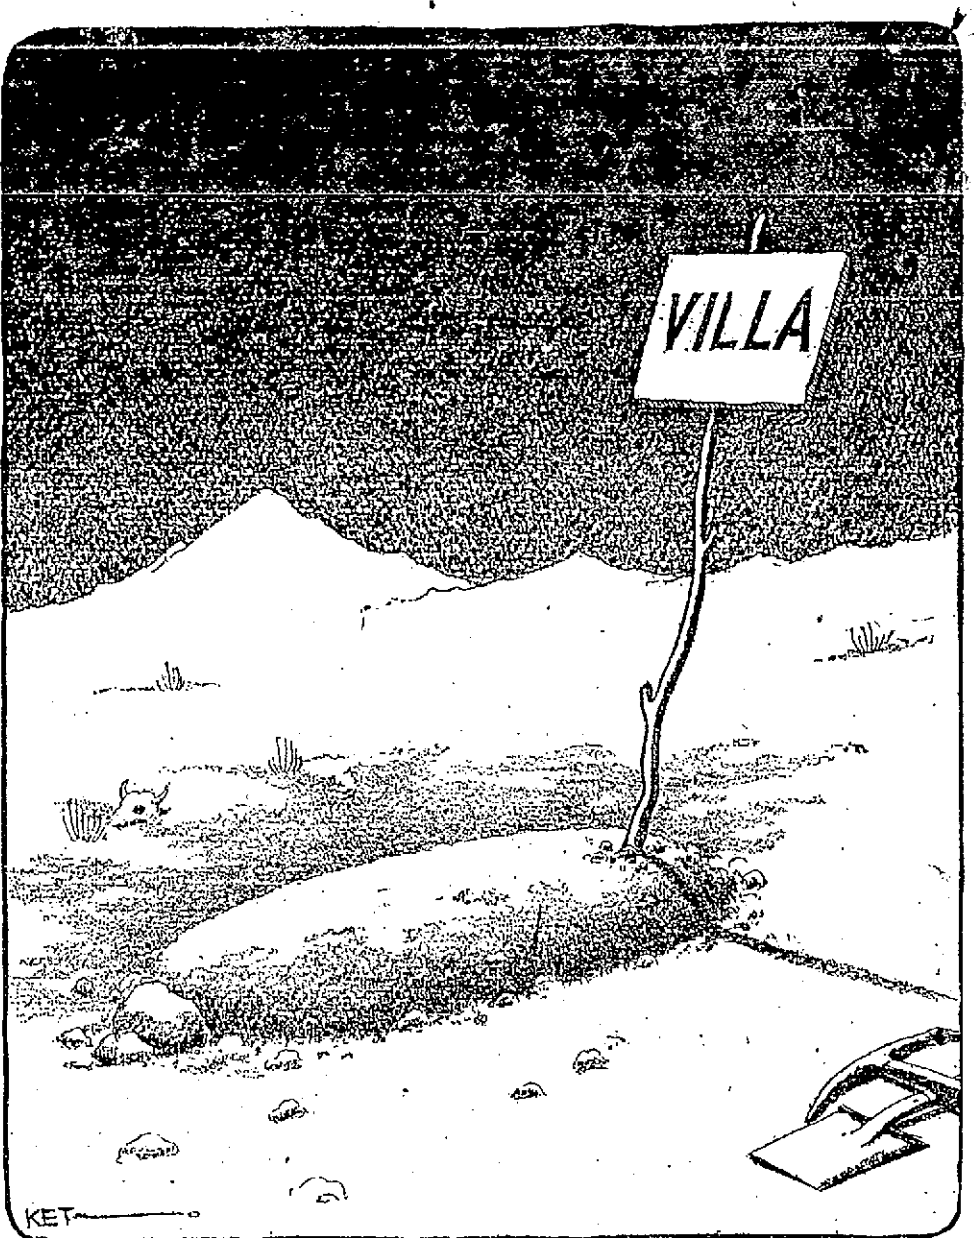

Speaking about the high cost of living, the Crockett Signal has figured it out that it is cheaper to be dying than to buy drugs. The principal ingredients in prescriptions have advanced from 200 to 1800 per cent.—Richmond Record-Herald.

After backing and filling for several months on the question of military training in the high school, the Board of Education of Santa Barbara has come out in favor of it.

The foreigners who come to America and cannot stand its glorious, white heat of patriotism, have our permission to return where war-crazed kings, lords, dukes and mixtures do all the thinking for the common herd.—Richmond Record-Herald.

There are some men in the newspaper business in this valley that can best be described as the "little end of nothing whittled to a fine point," and then add a minus sign to the end of the biography.—Holtville Tribune.

# THEN—WE'LL WITHDRAW!

# ARE WE PREPARED?

## An Army With Golf Clubs

**B**UT we would not even be allowed to arm. Two hundred thousand equipped troops landed at Boston, New York, Philadelphia and Washington would almost immediately seize all our Eastern arsenals, our gun factories, our ammunition, explosive and powder works, so that we could arm our million men only with golf clubs, walking sticks and pocket knives.

Many of the large government ammunition works, gun factories, naval stations, arsenals and submarine bases, etc., are on the coast and could be easily destroyed by bombardment from enemy ships standing off ten miles, completely out of range of our coast guns. The enemy, if they so wished, could destroy the five big gun and ammunition works at Bridgeport, the Winchester Arms Company and the Modern Firearms Company, at New Haven, the U. S. Naval Magazine at Bingham, Mass.; the United States Submarine Station, at Newport; the Battleship Torpedo Works, at Brooklyn; the United States Navy Yards at Portsmouth, Boston, Brooklyn, Philadelphia, Norfolk, Washington and Charleston; the United States Arsenal at Governor's Island; the proving grounds at Indian Head; the Marine Barracks at Washington and Port Royal; the Naval Stations at Key West and Guantanamo; the new Du Pont factories at City Point, Virginia.

The location of these works is exactly known to the navies of all foreign nations. Unlike the guns of our harbor defenses, they are not hidden in pits from the sight of the enemy. While there is a dumb hope among us that by some miraculous means we may be able to prevent the guns of foreign fleets destroying these factories, that hope is indeed vain.

Every man knows that a difference of even an inch in the reach of a prize fighter gives him a great advantage over an opponent whose reach is one inch less. But what chance would a prize fighter have with arms 32 inches long if he were to attempt to combat with a man with arms 64 inches long? Even if it were possible to install guns to protect these works, their effective range compared with the range of the guns of foreign battleships would be as 32 to 64.

Nine-tenths of all the large private manufacturers' of rifles, rapid-fire guns, heavy artillery, shrapnel, smokeless gunpowder, torpedoes and high explosives are within three and a half hours by train from Boston, New York or Philadelphia.

The largest United States Arsenal for the manufacture and storage of rifles is at Springfield, Mass., three hours by train from Boston and three and a half hours from New York. At Dover, N. J., less than two hours from New York, are located the big naval depots for explosives and ammunition for the Atlantic fleet, and the United States Army Arsenal, at which practically all the

high explosives and smokeless powder of the United States Government are kept.

The principal private gun, ammunition, powder, shrapnel and explosive factories are located as follows:

At Hartford, Conn., which is but three hours by train from New York and three hours from Boston, are the Colt Patent Fire Arms Company and Trinit & Whitney Works.

At New Haven, three hours from Boston and three and a half hours from New York, is the Smith & Wesson Revolver Company.

At Bridgeport, one hour and a half from New York, are the Bridgeport Arms Company (which is of such magnitude that it has been able to take many enormous European war order contracts—one order alone amounting to \$168,000,000), the Union Metallic Cartridge Company, the American-British Manufacturing Company, which makes rapid-fire guns for the Loconobile Company.

At Troy, N. Y., four hours from New York, are big gun, factories and one of the most important high-explosive works in the United States.

At Schenectady, four hours from New York, is the General Electric Company, which has already contracted for \$100,000,000 European war orders.

At Utica, which is distant from New York but nine and ten hours by two different routes, is the Savage Arms Company.

At Ilion, nine hours from New York, is the Remington Small Arms Company.

At Carneys Point, Parlin Lakes and Pompton Lakes, each not more than two hours from New York, are the Du Pont Smokeless Powder Works.

At Dover, N. J., but one hour and a half from New York, is Planting Arsenal.

At Bethlehem, Pa., only three hours from New York, is the Bethlehem Steel Works, with its big gun factories, shrapnel and torpedo works.

At Philadelphia, two hours from New York, and on the Atlantic Coast, is the Baldwin Locomotive Company.

At City Point, Va., is the new mammoth Du Pont Powder Works. And also the Westinghouse Company, the American Car and Foundry Company, the American Locomotive Company, the Aetna Explosive Company, the Pressed Steel Car Company, the New York Air-Brake Company, the Crucible Steel Company, the Hercules Powder Company and the Studebaker Corporation—all fitted to make supplies of war.

But, with the exception of a very few establishments, all of the foregoing are within ten hours by rail of New York. Even Pittsburg, the center of the steel industry of the United States, is, for a military train making no stops except for change of engines, but ten hours either from New York or Washington.

(COPYRIGHTED, 1916, BY THE TRIBUNE ASSOCIATION.)

## THE JESTER.

### Narrow Escape.

Mother (looking through magazine)—Darling, I see from statistics given here that every third baby born in the world is a Chinese.

Father (fondling his first-born)—Then thank goodness this is our first.—New York Globe.

### And He Knew It.

The Professor—I'm afraid, my dear young lady, that you find statistics very dry things.

The Dear Young Lady—Not always. Lieutenant Smyth told me there were four hundred billion people in the world, and I was the prettiest girl of the lot.—London Oylion.

### Our Gas.

First Manufacturer—Your factory is very well equipped, but you can't hold a candle to the stuff I turn out.

Second Manufacturer—And what do you manufacture?

First Manufacturer—Gunpowder.

### Ungrammatical.

We recently heard a remark by an old Kentucky farmer which seems worth entering for the ungrammatical sentence prize. To a visitor he observed: "Thum three Miss Perkins is three of us pretty good as ever I see."—Boston Transcript.

## WOULD SWAT THE SPARROWS.

Topeka has done so nicely at ridding herself of flies, that she might well try her hand at routing another pest from her midst. And this particular annoyance is none other than the English sparrow. This measly and worthless little bird is not only a nuisance, he is also a danger to one of Topeka's most valuable possessions, her trees. He doesn't harm the trees directly, it is true, but he is such a pugnacious and selfish rascal that he drives practically all other birds from what he considers his domain. Billy Robb is about the only bird that is brave enough to fight for his rights with the sparrow. A few blue jays and an occasional redbird brave him in his den, but the great bulk of the birds, the insectivorous birds that would soon clean the Topeka trees of their bugs and worms, are scared to death of the sparrow and they hunt haunts to which he is a stranger. With his trees, and the quietude that prevails in most of its streets in the residential districts, Topeka would become a big bird refuge in summer, and there would be no danger of its trees falling victims to the insects that have designs on their lives. If the sparrow were sent on his way, wouldn't that be worth the price of getting rid of this beast of a bird? Think it over!—Topeka State Journal.

## TWENTY YEARS AGO TODAY

The Police and Fire Commissioners examined horses for the fire department this morning and purchased a team of blacks weighing 2220 pounds.

The Committee of the Whole of the Board of Education met last evening and decided to change the system of heating and ventilation in the Oakland high school.

In accordance with its intention to invite to Oakland distinguished visitors from other states, the Merchants' Exchange today sent an invitation to the members of the Minneapolis Municipal party now touring the coast.

President Kellogg of the State University has returned from his trip.

## DRESSED FOR TODAY.

I have seen fashions for seventy-five years, and I never saw anything as ugly as the things that women are wearing now. They do not dress today—they undress. Annelle E. Barr, on her eighty-sixth birthday.

If young women dressed in pious, their elders, perhaps a ray of light, and would have some effect. But when has feminine fashion ever submitted to grandmotherly regulation?—New York World.

## THREE VICTIMS OF ACCIDENTS IN DAY

ALAMEDA, April 15. — Three Alameda men were victims of accidents yesterday. Duane A. Humblen, manager of the California Cante and Lodging company of San Francisco, was run down by a San Francisco jitney on Market street at Sainbow's Club. He received serious injuries, including a possible fractured skull. The jitney driver was George Hiltnerman.

Howard Latho, 1267 Benton street, slipped while sliding on the Mastic school bannister the last day of school, and broke his right arm at the wrist.

Robert J. Riley, 1200 17th street, lost his right leg while cleaning a small bone rifle at his home, 259 Lincoln avenue. The bullet, which had been loaded with the wrong charge, lodged behind the knee cap. Dr. J. J. Riley located the bullet with the aid of an X-ray.

## Mae Marsh Stars 'Hoodoo Ann,' Play

MAE MARSH, who makes her first appearance on the Triangle program in "Hoodoo Ann" at the Franklin tomorrow.

### 'Famous Overnight' Actress in Remarkable Role

Mae Marsh, who became a screen star over night, figures prominently in a fire that is part of "Hoodoo Ann," a Griffith-Triangle production which will be the attraction at the Franklin for three days commencing tomorrow. The experience proved an occasion even more thrilling for Miss Marsh than it will be for the spectators, for she let enthusiasm carry her into real danger not intended by the director, emerging with eight burns, and hair singed. In the role of an orphan who had to rush into a burning structure and rescue a little girl who was one of the inmates—and the building was really burning.

"Hoodoo Ann" is the first Triangle production in which Mae Marsh has appeared. It is declared to be well suited to the talents and personality of the young star and gives her many opportunities for the display of the mannerisms that have won her a host of admirers. The story, which is of the Cinderella type, makes possible Miss Marsh's creation of a real character—Hoodoo Ann, drudge of the orphanage, heroine of a fire, central figure in a mystery, and finally Mrs. Jimmie Vance. All her gifts of expression and pantomime are called into play and of Hoodoo Ann who makes a very realistic character. It is said the picture has such a universal appeal that it will delight not merely adults, but children as well. It is filled with those little human touches for which Griffith's pictures are famous. Robert Barron, as Jimmie Vance, heads Miss Marsh's supporting cast. Other features, including a Kerstone comedy entitled, "By Stork Delivery" and the latest issue of the Sully-Tribune News pictures make up the remainder of the bill.

## D. H. S. ACTORS IN TRAGEDY, SUCCEED

"Coriolanus" Is Splendidly  
Given by Student  
Performers

Oakland's high school Thespians last night proved that sometimes high school plays are not the amateurish affairs that comic writers and professional scoffers would have us believe. Youth, perhaps, supplies an enthusiasm that covers a multitude of technical blunders; and perhaps the boyish voices of some high school actors might not pass for those of a Samson or a Goliath, a Gargantua, or some of Shakespeare's heroes, but these, after all, are defects only when noticed.

And if the illusion is perfect, nought else matters.

This was the case last night. The buoyance of youth conquered difficulties which able actors fear to face, and Shakespeare's "Coriolanus," as presented by the English classes of the Oakland High School at the Municipal Opera House, was a decided success.

Roberta Wells and Horace Beverly, leading man and leading woman in the clever company of youthful actors, scored the most decided successes over achieved by high school actors about the bay. They carried their roles like veterans; of course they had been in amateur productions before and, passing strange for high school actors, did not get excited and rant.

The cast supporting Miss Wells and Beverly was specially picked, and picked well, and the training of Miss Elizabeth Kedrovian was evident throughout the offering.

The play, given as one of the features of the celebration of the Shakespeare Tercentenary, was produced in lavish style, fully 100 students being in the cast, and elaborate scenery being prepared. Prominent society women, in Elizabethan costume, acted as patronesses of the affair. The cast included the following named:

Coriolanus—Horace Beverly

Antony—Alfred Solomon  
Brutus—Clifton Hildebrand  
Edmund de Poyas—Leland Poole  
Titus Lartius—Grant Billington  
Herald—Fulmer Wood  
Aedile—  
Aedile—McKenzie Johnstone, Paul Davies, Saxon Lewis.  
Citizens—Harold Young, Joe Bobbs, John Reynolds, John Chestnut.  
Senators—Robert Butler, George Mac-Tavish.  
Servants to Aedile—Ed. Drew, Martel Fothergill, Carroll Peck.  
Sentinels—Ed. Morris, John Reynolds (also citizens, act 3).  
Conspirators—Rudolph Winham, Gerald Gray, Fred Teague.  
Messengers—First and second, Ed. de Goller, second, Harold Fraser.  
Soldier to Aedile—Frederick Teague.  
Aediles (two who do not speak)—Ward Slattery, Harold Belter.  
Lords—Paul Bloomheart, Harold Young (also citizens, act 3), Ed. Hogan (also sentinels, act 2).  
Volunteers—Roberta Wells, Virginia Lorene Watson, Valeria Irma Garver.

## SERVICE HELD FOR FATHER SCANLAN

Priests From All Parts of Bay  
Attend Funeral at St.  
Columba's.

Funeral services for Father Martin P. Scanlan, pastor of St. Columba's church, were held this morning at the church, with priests from all parts of the bay region participating in the mass and as pallbearers. Archbishop Hanna was present.

Father P. P. Dempsey of St. Mary's officiated at the mass, assisted by Father

J. J. Cranwell as deacon, Father Donald McKinnon as sub deacon, and with Father P. J. Geane of St. Francis de Sales church preaching the sermon.

The honorary and active pallbearers were priests from the various churches about the bay. The services took place at 10 o'clock.

Father Scanlan was prominent in Oakland church work for years, and had directed a number of important church activities. No successor has yet been named for his pulpit.

The active pallbearers were: Rev. Father Edward Maher, Rev. Father Hugh Bohan, Rev. Father Anthony Henaglan, Rev. Father John Hennessy, Rev. Father Andrew Carroll and Rev. Father John Marchisio. The honorary pallbearers were Rev. Father Lawrence Serda, Rev. Father Maurice Barry, Rev. Father P. J. Quinn, Rev. Father Robert Sampson, Rev. Father P. Griffin, Rev. Father J. Gall, Rev. Father John McGinty and Rev. Father A. N. Santandreu.

The burial was held at St. Mary's cemetery, Oakland.

## DO YOU SUFFER FROM CONSTIPATION?

If so, your stomach, bowels and liver require a more liberal supply of the plainer, coarser, waste-containing cereals—foods that the digestive muscles must have to provide them with their proper exercise.

Try eating a liberal amount of Dr. Jackson's Roman Meal for a change and see how much better you'll feel. This plain, old-fashioned sort of food, consisting of whole wheat, rye, deodorized flaxseed, and wheat bran, was designed by a leading physician to relieve constipation, indigestion and tired (torpid) liver.—Advertisement.

## PACIFIC SERVICE

High Grade

Low Cost

# FUEL

## CARBON FUEL

Made of compressed carbon—can be used for every purpose where coal is used.

The coal range can be made more efficient by the use of this fuel—having more heat units with little ash.

RATE: \$9.00 per ton at your coal dealers.

## GAS

COOK WITH GAS—these three words suggest a popular plan that reduces the drudgery of kitchen work about one-half.

Modern gas ranges are the perfection of years of experience.

The most practical and satisfactory cooking appliance made today.

RATE: 90c per thousand cu. ft. Minimum 50c per month.

## ELECTRICITY

PROVIDES A CLEAN, A SANITARY AND A HYGENIC METHOD OF COOKING; A NEW WAY.

Our electric range specialist will be pleased to call to show the latest ranges and methods of cooking by electricity.

RATE: 3c per KWH. Minimum \$1.00 per month.

WE FURNISH FREE EXPERT ADVICE ON FUEL PROBLEMS.

## WALL STREET AWAITS FRESH DEVELOPMENTS

### Barely Nominal Market at Saturday Session of Exchange

NEW YORK, April 15.—Naturally little was expected from the Street's short session and barely more than a nominal market prevailed at the outset. The news with regard to Germany and Mexico was not worse than that of yesterday, but overnight consideration of the developments disclosed that very little had been accomplished toward the settlement of either.

The market therefore resumed its waiting, which will likely continue until something develops with regard to the New American note's reception by Germany and the outcome of the army withdrawal negotiations with Carranza.

First prices were generally higher in continuance of the short covering movement which characterized yesterday's close, but the improvement was slight and did not proceed far.

The activity was moderate and wholly professional, uncertainties preventing expansion of public buying.

### AMERICAN STOCKS IN LONDON

NEW YORK, April 15.—The reaction in Wall Street helped the tone in the American section of the stock market today, though business was very slack.

The news with regard to Germany and Mexico was not worse than that of yesterday, but overnight consideration of the developments disclosed that very little had been accomplished toward the settlement of either.

The market therefore resumed its waiting, which will likely continue until something develops with regard to the New American note's reception by Germany and the outcome of the army withdrawal negotiations with Carranza.

First prices were generally higher in continuance of the short covering movement which characterized yesterday's close, but the improvement was slight and did not proceed far.

The activity was moderate and wholly professional, uncertainties preventing expansion of public buying.

### PROFESSIONAL ADVICE

DEER BROTHERS.—There are many who are beginning to figure as to what will be the value of stock after the war and census of opinion point to good results. Sentiment of country has changed toward the industry and better treatment has been meted out from national and state legislation can be expected. The wealth of this country is

## Parents to Recover Effects of Poison

SAN FRANCISCO, April 15.—Mrs. Margaret Lynch, who, overcome with grief and despair by reason of the death of two of her four children from diphtheria, attempted suicide last night, at her home, 1116 Tennessee street, is expected to recover. Her husband, George Lynch, an employee of the American Can Company, who has been for days trying to prevent his wife's suicide, and who joining in her grief, also swallowed poison, is completely out of danger. Lynch returned home from work yesterday and caught his wife in the act of taking poison. When he found he could not prevent her from swallowing the poison, he took a draught of it himself and lay down beside her. Repenting his action, he communicated with the Potrero Hospital where both were taken.

## When You're Living in Country Club Heights

You're realizing the fulfillment of an ambition of years.

You saw Claremont spring up out of a wilderness—saw it transformed into an exclusive home place of rare beauty—you neglected your opportunity then, and you were sorry.

You saw Piedmont develop on the hillside just a few steps away from Fourteenth and Broadway—develop from a grain field. It, too, is built up and sold and prices are rightfully those of a beautiful property, close in and thoroughly established.

And Country Club Heights—closer than either—on the main street of Oakland—Broadway at College. What of Country Club Heights, with Oakland growing as never before?

The lots are practically all sold. The homes, newly-planned and newly-built, are selling rapidly, passing out of your reach into the hands of others—a few more weeks and it, too, will all be gone.

Yet a few hundred dollars today, and your rent money will gain you the ideal of years.

## ELECTRIFICATION OF S. P. CONSIDERED

Under Plan Oakland Would Be Power Car Terminal.

Surveys and plans which have been made by Southern Pacific engineers indicate that the corporation has long been contemplating the electrification of its lines over the Siskiyou and Sierra Nevada mountains, using Oakland as its electric railway terminus. These things became known through inadvertence yesterday in a hearing in San Francisco before Railroad Commissioner H. D. Loveland. The information was contained in the testimony of A. H. Babcock, chief electrical engineer of the railroad company.

Babcock was called as an expert witness for the California-Oregon Power Company to testify as to the ability of that concern to furnish power in adequate quantity to whoever might need it. This case before Loveland was caused by the claims of the California-Oregon Power Company, the Trinity Mining and Reduction Company and the Northern California Power Company to the exclusive privilege of each of the concerns to furnish power for operating the big gold dredgers to be installed in the Trinity gold fields.

QUESTION IS ASKED.

Attorney Babcock, for the California-Oregon Power Company, asked Babcock if he had ever made any surveys in the northern part of the state with the idea of installing electrical power for motive purposes on the Duaneville divide.

Babcock replied that he did not think any surveys had been made, for the reason that the company had its own right of way. "In the event that we would do any electrification," said he, "we probably would follow our right of way very closely. We have studied that electrification problem a number of times. I had it in mind when I was with A. J. Roseborough (Roseborough is vice-president of the California-Oregon Power Company) and also with a Frenchman, I don't recall his name, a Count somebody. We studied the question at that time, before we had any right of way in the country there to make it impossible for us to give good service to ourselves or expect anything but good service from any power company under adequate management."

ENGINEERING PROBLEM.

"It is purely an engineering problem and one capable of direct and definite solution without difficulty."

In view of the fact that the price of fuel oil is rising and also that the Chicago, Milwaukee and St. Paul Railroad has recently substituted electric energy for steam, Babcock's statement was listened to with attention.

Babcock today issued a statement for the Southern Pacific Company in which he says that it is "wholly without warrant" to draw the inference from his testimony that plans for electrification have any immediate prospect of being realized.

## HOLMAN PLANNED TO WED, IS TALE

That Charles Holman, the Oakland man now facing trial for murder in Stockton, and Margaret Chambers, accused as his accomplice, had planned to be married, was the testimony brought into the Stockton case by "Sis" Hopkins, a cook Mrs. Hopkins declared that Holman, accused of the murder of Mrs. Chambers' husband, and Mrs. Chambers, known to the Stockton underworld as Lella Baker, had engaged her to cook a wedding dinner for them, and further promised her to take her on their wedding trip to a ranch owned by Mrs. Chambers.

Holman, taking the stand on his own behalf, denied the entire affair. He declared that he had known Mrs. Baker, and did not for some time know that she was married to Chambers. He was informed of this, he says, at his father's home at 445 East Fourteenth street, Oakland.

He declared that the first he knew of the murder was when he read of it in the papers. Mrs. Chambers will go on the stand Monday.

## Advertising Experts Discuss Their Craft

The first of a series of educational advertising meetings was held last night by the Advertising Bureau of the Chamber of Commerce. The meeting was directed by K. L. Hammond, who spoke on various phases of advertising, including the analysis of the advertiser's market. John A. Fenton emphasized the importance of the merchant studying his market and said that most of the failures caused by applying the wrong plan of campaign. George A. Cummings outlined the importance of using definite mediums, and suggesting to them consistently. Irving Kahn urged constructive advertising copy on the part of the merchant, rather than copy which attracted attention to some alleged weakness of their competitor. J. R. Munnell took up the human side of the fellow who reads advertising.

"Although advertising results are figured by average, do not forget that advertising copy is read by individuals of different make-up, and not read in a collective sense," said Munnell.

An interesting program of entertainment, with Cliff Brooks in charge was given by Frank Marvin, Eugene Roland, Harry Bell, Arthur Hargrave, George Ludlow and "Yuck."

## Four Movie Men Are Lost in Sierras

OROVILLE, Cal., April 15.—Reports received in this city state four moving picture men and their guide are lost in the Lake region in the vicinity of Buck Ranch, Plumas county, in the high Sierras. No news has been received from the party for a week. It is believed the men are either dead or wandering in the deep snow without food.

## S. F. Man Would Sell Murderer for Reward

LOS ANGELES, April 15.—Announcing that he knew the murderer of 9-year-old Anna Poltera, who was slain in Griffith Park on May 21, 1915, Professor H. C. Priests of San Francisco wrote to Sheriff Cline to ascertain the amount of reward now offered for the arrest and conviction of the assassin. Priests states in his letter that the little girl was killed by a young man who knew her well and who is now working in a Los Angeles office.

## WEEKLY REVIEW OF FACTORY ACTIVITY

New Building and Industries Established—Others Enlarging and Business Generally Increasing

Facts Gathered From Bay Cities Twelve Hundred Industries By the Factory Editor

There is as much competition today among communities as there is among individual business houses. It is a recognized fact that communities best organized always forge ahead, while those not well-organized remain more or less dormant.

The citizens of the bay cities must stimulate the co-operative spirit. No man becomes prosperous in isolation—he must deal with his fellows. The same rule is relevant in cities. Get the spirit that spells success and co-operate with the factories that

employ help by demanding their merchandise.

Factories make a city a better place in which to reside, to do business, to rear a family, to find continuous, profitable employment and to own property. Therefore render the highest type of service to yourself by learning what is made here—then boost.

Prosperity largely depends on the payroll. With the right spirit local factories will prosper and pay increased dividends in future prosperity.

The Co-operative Overall factory is deluged with orders that continue to come from all western states.

The American Photo Play Picture Company, a Berkeley concern, is erecting a new building adjoining its present plant.

The Copper Shop, makers of novelties in copper, at 633 15th street, shipped a big order of art wares to Milwaukee, Indiana.

Within the last thirty days the Western Oak Company has delivered four automobiles to California customers.

Edwin C. Graff, the contractor, has ordered a big supply of sand ornaments from the Burbank factory at 5th and Market.

The Bradshaw Electric Sign Company shipped four signs to San Jose that will do much toward brightening the streets of that city.

The Reliable Show Case factory at 1st Franklin has completed a special order for a Stockton merchant and several city commissions.

The Sun Milling Company received three carloads of special wheat, which it made into cereals at its Lewis street factory.

The El Dorado Oil Company of West Berkeley has added 150 additional horsepower to their already fine electric power system.

A new firm that enters the local field as manufacturers is the Central Optical Company with main offices in the First National Bank Building.

The schooner Anvil arrived on Thursday morning for an extensive overhauling of her engines and machinery at the Union Engine Company's wharf.

An order for 12,000 bottles (500 gross) of fountain pen ink is now being filled by the Caldwell Ink Company. This order is from a San Francisco stationer.

Kistler and Banks have opened a metal working plant at 108 Twelfth street, where they will produce brass fixtures, aluminum wares and iron novelties.

F. L. De Sanno, at 1533 35th avenue, finds his business growing, although he holds his line of work purely to screw machine products in brass and iron.

Rancones and Bombay, India; Caracas, Venezuela, and Australian points were represented in orders for paint at the California Paint Company this week.

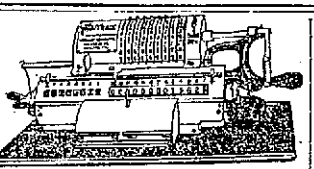

The big plant of the Gilro Machine Company at the foot of Ninth avenue is constantly increasing in the making of presses, dies and stamping.

The W. R. Sibbett Company, makers of water, have completed a ten-inch well that will more than supply their needs.

Golden West Brewing Company's freight boat Golden West has had the installation of her Union engines completed and will have her trial trip on Thursday or Friday.

The California Door Company and the California Cabinet Company, both neighbors, have splendid ball teams among their employees and several games are scheduled.

E. G. Wernherland, an expert in the manufacture of tools, dies and automatic machinery, will soon open an Oakland plant. His residence is given as 5023 Colby street.

R. M. Carlson at his Eighth and Center streets factory is filling a \$50,000 contract of gear cutting for a local customer. While he does other work, he specializes in gear cutting.

The Sullivan Tractor Company has established agencies at Los Angeles and Fresno and shipped three machines. It will equip all tractors after July 1 with their new engine, built locally.

The Pacific Spring Bed Company of West Berkeley has equipped its plant with the unit system of electric motors, making it possible for increased production without increase in power cost.

The Marchant Calculating Machine Company is building a baseball ground adjoining their Emeryville factory, for the use of their employees, and also parking the approaches to the factory.

The Oakland Mazda Lamp Division of the General Electric Company, at their 10th street factory, have erected over their entrance an electric light sign in the form of a moving flag in colors.

E. W. Pearce of the Pearce Glove Company has returned from a trip among his state trade and brought with him splendid orders. He confines his factory work largely to work gloves and auto gloves.

The American Rubber factory is working on a state order for 50,000 rubber ball stamps and on Monday will begin on a South American commission of making several thousand feet of six-inch oil hose.

A 150-horsepower, four-cylinder Union engine is now being installed in the Red Salmon Packing Company's tugboat Frank B. It is expected that she will leave for Alaska the latter part of next week.

After thirty-three years of conducting all local drayage with teams, the Judson-Crocker Company is adding to the ranks of auto truck users. A 2 1/2-ton truck is being used this week for the first time.

Large shipments of gloves have been forwarded the past week from the Zuber Brothers and Davidson factory to Butte and Anaconda, Montana, and to Iowa and St. Louis, with orders ahead indicating good business.

Bather Rouger's schooner Tsalal May had her trial trip on Thursday. She was equipped with Union propelling engines and ship's winches. It is expected that she will leave for Christmas Island in the near future.

Kiel & Brans are now occupying their new plant at 1450 Harrison street, having outgrown their former location at 11th and Franklin. In the new shop they will give greater attention to the building of auto chassis.

The making of auto hoods, fenders and glass fronts is an industry that has grown to be a business within itself and the firm of Max Bechtel & Son have equipped their shop at 273 9th st. as specialists in this line of manufacture.

Over 25,000 pounds of rubber was used in one order of paper rolls for a paper mill, at the American Rubber plant, while another order is for the entire mill equipment of a private yacht now being constructed in Wilmington. This last order nears \$2000 in value.

J. T. Edwards has taken over the old "Vim" studio in Alameda and will hereafter specialize in the production of scientific films under the title of the Premier Scientific and Educational Film Co. The plant is located at 1921 Webster street.

California catsup will be served to Hongkong Americans and others, as a big shipment was forwarded this week to China. Also shipments of Oakland packed catsup went to Eastern cities from the California Pickle and Sauce factory.

Henry Dalton & Sons Company conducted a well-publicized foundry at the foot of Tenth street. This plant projects into the city, giving unusual working conditions for its force. It specializes in bridge weights, elevator weights and window washers.

The W. R. Sibbett Company start the construction of a new building Monday adjoining its present location on Telegraph street. This additional building will permit it to increase its output of waste and packing products three times over its present capacity.

R. J. Hunter, cabinet and furniture maker, has leased additional space adjoining his present location on Telegraph street and has found that business justifies the employment of two more furniture makers. He says it pays to advertise in THE TRIBUNE.

The Standard Fence Company calls attention to the hundreds of beautiful lawns in the bay cities that are hiding behind unsightly board fences, stating that wire fences that cannot be seen. Wire fences are better.

Atlantic coast shipbuilding interests are now depending on Oakland for materials in the Gold Metal Water Proofing Company's compound to warehouses in Baltimore. This material is the new production superseding Red Lead Putty.

The teachers of several Oakland schools have recently given their pupils a splendid treat by arranging with the California Crocker Company to allow them to spend a half hour in witnessing the modern making of crackers. The pleasure of the children is evident in the sanitary methods of manufacture.

The National Pharmacy, makers of Borax Tooth Paste and other specialties, has arranged its entire plant to give additional space for their growing trade. However, it anticipates the early necessity of building on ground, wisely purchased years ago, adjoining their present site at 1733 Seventeenth street.

An Oakland factory that is receiving orders for planning from all the large cities of the country is the Alameda Cold Register Company. Its machines are being accepted as standard by all street car corporations and amusement resorts, necessitating the continuous operation of its plant in Hollis street, in Emeryville.

The Standard Gas Engine Company is keeping up its run and during the past week has made shipments of engines to the following points: Alaska, Manila, Hilo, Honolulu, San Pedro, Mexico. Quite a few of the shipments going north were engines for the Alaska fishermen who are now fishing out for the 1916 fishing season.

The Marchant Coffee and Spice Mills are among the manufacturers who ship all their products with Oakland labels. Orders generally comment on the growing tendency among their customers to accept Oakland-made products as superior. This concern has a large trade among the country grocers for its Piedmont brand of coffee.

The California Syrup and Extract Manufacturing Company, which began business in a small way several years since

have grown into a business of considerable magnitude. Some of the specialties are honey, catsup, mustard, syrup and vinegar. It maintains a factory at 1205 Fifty-fifth street, under the management of C. D. Mooney.

Schmely, Caster & Pedgrift state that building activity is showing a splendid increase. Work completed last week by their force was the Koppel \$10,000 residence in Alameda, the Mazda Lamp warehouse, and a storage warehouse at 55th and Grove street for H. Schlichting. The contracting firm maintains an unusually excellent mill at 5th and Jackson.

R. D. Fogel, a specialist in amusement devices, has changed the old merry-go-round and hereafter horses, camels and donkeys will be mounted on trucks drawn by a tractor to be driven about the paths of public resorts. The first equipment will soon be tried out at Idora Park. The entire work of tractors and trailers are now under construction at the plant of the California Metal works on 20th street.

The exclusive manufacture of fine gloves in Oakland is now receiving attention at the factory of the Oakland Glove Company, at 545 San Pablo avenue. This is probably the only factory of the kind on the Pacific Coast where the finest gloves for ladies are made. It is receiving the patronage of the retail stores and has for some months been unable to supply the demand for their products. The glove of the better class of skins which are usually marketed in the East, but now a considerable market among the several glove factories located in Oakland.

Asbestos Products and Commercial Minerals are now being treated at the Oakland factory conducted by the Jno. D. Hoff Company, at the foot of 22d ave. Some eight different products are now made from California mined asbestos in addition to more than fifteen minerals treated. Some of the various minerals are magnesite, silica, talc, asbestos, Fuller's earth, fire clay, pumice, mica, brylites and talc. The work has had a stimulating effect on local mines and has been the inspiration for the active operation of several within one hundred miles of Oakland that had for years lain dormant.

Eleven months ago the Peck and Little Furniture Company engaged F. W. Flaherty to come from an eastern factory and open a plant for them at Park and Hubbard streets. From the employment of seven men at the opening the business has now grown until more than seventy furniture experts are employed. Every modern kind of furniture is now made in the plant from the cheapest chair to the richest bedroom and library art designs. The products are in constant demand through the several wholesale establishments conducted by the firm. It is already considered that a new factory must be constructed to carry for the increasing demand, probably to be started by September.

Every department of the thirteen-acre factory of the Judson Iron Manufacturing Company at Emeryville is rushed. In fact, the rolling mills are now running full 24 hours a day and have been for some months. This immense factory has a new roll in its constant production of every thirty days and is shipping 100,000 tons of finished steel out weekly. Some of the products are structural steel, nails, wire, bolts, nuts, structural steel, building materials, railway equipment, mining outfits, tractor frames, plows and general blacksmith's supplies. Four hundred men are on the total pay roll. The factory is under the management of W. D. Bunker.
